

MSCI World Catholic Values Custom Index (USD)

The MSCI World Catholic Values Index is a custom index based on the MSCI World Index which includes large and mid-cap stocks across 23 Developed Markets countries *. The Index does not include any security that is currently not a constituent of the MSCI World ESG Index. MSCI World ESG Index is constructed using the MSCI Global Sustainability Indexes methodology. MSCI Global Sustainability Indexes do not include any security with an ESG rating of 'B' or lower or an Impact Monitor controversy assessment of severe or very severe (Impact Monitor score of 2 or below). This rating criterion ensures a high minimum level of ESG performance, consistent with the aim of including only the best-in-class companies in the index. A lower threshold is used for current index constituents to maintain index stability. A current constituent remains eligible if it has an ESG rating of 'B' or higher and an Impact Monitor score of 2 or higher. Constituent selection is based on data from MSCI ESG Research.

For a complete description of the index methodology, please see [Index methodology - MSCI](#).

The MSCI World Catholic Values Custom Index was launched on Mar 24, 2014. Data prior to the launch date is back-tested test (i.e. calculations of how the index might have performed over that time period had the index existed). There are frequently material differences between back-tested performance and actual results. Past performance – whether actual or back-tested – is no indication or guarantee of future performance.
