

MSCI EM Latin America Islamic Index (USD)

The **MSCI EM Latin America Islamic Index** reflects Sharia investment principles and is designed to measure the performance of the large and mid cap segments of the Emerging Markets (EM) markets in Latin America* that are relevant for Islamic investors. The index, with 22 constituents applies stringent screens to exclude securities based on two types of criteria: business activities and financial ratios derived from total assets.

For a complete description of the index methodology, please see [Index methodology - MSCI](#).

*Please refer to MSCI Islamic Index Series Methodology for a list of markets MSCI considers for the MSCI Islamic Index Series.

The MSCI EM Latin America Islamic Index was launched on Jul 26, 2007. Data prior to the launch date is back-tested test (i.e. calculations of how the index might have performed over that time period had the index existed). There are frequently material differences between back-tested performance and actual results. Past performance – whether actual or back-tested – is no indication or guarantee of future performance.

MSCI FaCS provides absolute factor exposures relative to a broad global index - MSCI ACWI IMI.

Neutral factor exposure (FaCS = 0) represents MSCI ACWI IMI.

SECTOR WEIGHTS

- Materials 48.99%
- Energy 17.57%
- Utilities 13.01%
- Industrials 8.51%
- Consumer Staples 5.27%
- Real Estate 3.6%
- Communication Services 1.54%
- Information Technology 1.5%

MSCI FACTOR BOX AND FaCS FRAMEWORK (Please refer to complete description of the MSCI FaCS methodology [here](#))

MSCI FaCS is a standard method for evaluating and reporting the Factor characteristics of equity portfolios. MSCI FaCS consists of Factor Groups (e.g. Value, Size, Momentum, Quality, Yield, and Volatility) that have been extensively documented in academic literature and validated by MSCI Research as key drivers of risk and return in equity portfolios. These Factor Groups are constructed by aggregating 16 factors (e.g. Book-to-Price, Earnings/Dividend Yields, LT Reversal, Leverage, Earnings Variability/Quality, Beta) from the latest Barra global equity factor risk model, GEMLT, designed to make fund comparisons transparent and intuitive for use. The MSCI Factor Box, which is powered by MSCI FaCS, provides a visualization designed to easily compare absolute exposures of funds/indexes and their benchmarks along 6 Factor Groups that have historically demonstrated excess market returns over the long run.

ABOUT MSCI

MSCI (NYSE: MSCI Inc.) strengthens global markets by connecting participants across the financial ecosystem with a common language. Our research-based data, analytics and indexes, supported by advanced technology, set standards for global investors and help our clients understand risks and opportunities so they can make better decisions and unlock innovation. We serve asset managers and owners, private-market sponsors and investors, hedge funds, wealth managers, banks, insurers and corporates. To learn more, please visit www.msci.com.
