

# MSCI USA ESG Leaders Index (USD)

The MSCI USA ESG Leaders Index is a free float-adjusted market capitalization-weighted index designed to represent the performance of companies that are selected from the MSCI USA Index ("Parent Index") based on Environmental, Social and Governance (ESG) criteria. These criteria exclude constituents based on involvement in specific business activities, as well as ESG ratings and exposure to Controversies. The Indexes are derived from the MSCI USA Index and aim to achieve sector weights that reflect the sector weights of the corresponding Parent Index. The MSCI USA ESG Leaders Index consists of Large and Mid cap companies in US markets. The Index construction targets 50% free float-adjusted market capitalization coverage of each Global Industry Classification Standard (GICS®) sector by selecting constituents primarily based on criteria including the ESG rating, the trend in that rating and the company's industry-adjusted ESG score.

For a complete description of the index methodology, please see [Index methodology - MSCI](#).
