Index methodology

The MSCI United Kingdom Sustainable Select 50 5% Decrement Index is constructed from MSCI United Kingdom Index, its parent index. The index aims to represent the performance of a set of 50 stocks from the United Kingdom that have a large free-float adjusted market capitalization and a robust ESG profile.

The Index applies a constant markdown (‘synthetic dividend’) of 5% on the net total return variant on an annual basis, expressed as a percentage of performance. The index is reviewed on a quarterly basis coinciding with the May and November Semi-Annual Index Reviews and the February and August Quarterly Index Reviews of the Parent Index.
