# MSCI World 20% Screened TE Constrained Select Index (EUR)

The MSCI World 20% Screened TE Constrained Select Index (the "Index") aims to represent the performance of an investment strategy that is designed to exclude companies based on ESG and climate criteria, based on companies` ESG Scores, the index excludes 20% of the number of stocks from the MSCI World Index (the "Parent index"). As a final step, the index aims to minimize the tracking error relative to the Parent index through an optimization process.

For a complete description of the index methodology, please see Index methodology - MSCI.

The MSCI World 20% Screened TE Constrained Select Index was launched on Jun 13, 2024. Data prior to the launch date is back-tested test (i.e. calculations of how the index might have performed over that time period had the index existed). There are frequently material differences between back-tested performance and actual results. Past performance -- whether actual or back-tested -- is no indication or guarantee of future performance.

ABOUT MSCI

MSCI is a leading provider of critical decision support tools and services for the global investment community. With over 45 years of expertise in research, data and technology, we power better investment decisions by enabling clients to understand and analyze key drivers of risk and return and confidently build more effective portfolios. We create industry-leading research-enhanced solutions that clients use to gain insight into and improve transparency across the investment process. To learn more, please visit www.msci.com.
