The MSCI UK ex Weapons and Non Renewables Select Index was launched on Sep 09, 2020. Data prior to the launch date is back-tested test (i.e. calculations of how the index might have performed over that time period had the index existed). There are frequently material differences between back-tested performance and actual results. Past performance – whether actual or back-tested – is no indication or guarantee of future performance.

INDEX FRAMEWORK

MSCI UK ex Weapons and Non Renewables Select Index excludes companies from the parent index that are associated with controversial weapons, nuclear weapons, as well as those that derive revenue from thermal coal, oil sands and Arctic oil-related activities. The indexes are maintained following the [MSCI Global Investable Indexes \(GIMI\) Methodology](#) – a comprehensive and consistent approach to index construction that allows for meaningful global views and cross regional comparisons across all market capitalization size, sector and style segments and combinations. This methodology aims to provide exhaustive coverage of the relevant investment opportunity set with a strong emphasis on index liquidity, investability and replicability.

The index is reviewed in February, May, August and November, coinciding with the Quarterly and Semi-Annual Index Reviews of MSCI Global Investable Market Indexes.

This summary is provided for illustrative purposes only and does not include all material elements of the index or its methodology. For a complete description of the index methodology, please see [Index methodology - MSCI](#).
