

MSCI Emerging Markets Select ESG Leaders Low Carbon Impact Index (USD)

The MSCI Emerging Markets Select ESG Leaders Low Carbon Impact Index is based on the MSCI Emerging Markets Index, its parent index, and includes large and mid-cap securities across 24 Emerging Markets (EM) countries*. The Index applies certain values-based exclusion criteria, and the weights of securities are tilted in proportion of the aggregated Sustainable Impact Revenue contribution from the following components: Alternative Energy, Energy Efficiency, Green Building, Pollution Prevention, Sustainable Water, Sustainable Agriculture, Connectivity, Education, SME Finance. Finally, to reflect a lower carbon exposure than that of the broad market the index selects companies with low carbon emissions relative to sales and those with low potential carbon emissions per dollar of market capitalization.

For a complete description of the index methodology, please see [Index methodology - MSCI](#).
