

MSCI ACWI IMI with USA (Gross) (USD)

The MSCI ACWI Investable Market Index (IMI) with USA (Gross) is designed to measure the performance of the large, mid and small cap segments across 23 Developed and 27 Emerging Markets countries*. With 8,930 constituents, the index covers approximately 99% of the global investable equity opportunity set. The index is intended for US clients: its net daily total returns are calculated without deducting withholding taxes for all US-based constituents in the index. In other words, the returns for US-based constituents in the index are expressed as gross total returns.

CUMULATIVE INDEX PERFORMANCE – NET RETURNS (USD) (MAR 2006 – MAR 2021)

ANNUAL PERFORMANCE (%)

INDEX METHODOLOGY

The index is based on the [MSCI Global Investable Market Indexes \(GIMI\) Methodology](#)—a comprehensive and consistent approach to index construction that allows for meaningful global views and cross regional comparisons across all market capitalization size, sector and style segments and combinations. This methodology aims to provide exhaustive coverage of the relevant investment opportunity set with a strong emphasis on index liquidity, investability and replicability. The index is reviewed quarterly—in February, May, August and November—with the objective of reflecting change in the underlying equity markets in a timely manner, while limiting undue index turnover. During the May and November semi-annual index reviews, the index is rebalanced and the large, mid and small capitalization cutoff points are recalculated.

ABOUT MSCI

MSCI is a leading provider of critical decision support tools and services for the global investment community. With over 45 years of expertise in research, data and technology, we power better investment decisions by enabling clients to understand and analyze key drivers of risk and return and confidently build more effective portfolios. We create industry-leading research-enhanced solutions that clients use to gain insight into and improve transparency across the investment process. To learn more, please visit www.msci.com.
