

MSCI Pacific ex Japan Screened Choice Index (EUR)

The MSCI Pacific ex Japan Screened Choice Index is based on MSCI Pacific ex Japan, its parent index, which captures large and mid-cap representation across 4 of 5 Developed Markets (DM) countries* in the Pacific region (excluding Japan). The Index constituents are weighted according to their free float adjusted market capitalizations applicable to foreign investors. The index represents the performance of the broad market while excluding companies that are associated with Controversial Weapons or fail to comply with United Nations Global Compact principles. Constituent selection is based on data from MSCI ESG Research. Each country's weight within the Index will fluctuate over time according to market movements. Constituent weights are not rebalanced to the initial levels at any time.
