

MSCI USA Leaders Select Index (USD)

The MSCI USA Leaders Select Index is a free float-adjusted market capitalization-weighted index designed to represent the performance of companies that are selected from an underlying index based on Environmental, Social and Governance (ESG) criteria. These criteria exclude constituents based on involvement in specific business activities, as well as ESG ratings and exposure to ESG controversies. The Index is derived from underlying MSCI USA index and aim to achieve sector weights that reflect the sector weights of the corresponding Parent Index. The Index construction targets 50% free float-adjusted market capitalization coverage of each Global Industry Classification Standard (GICS®) sector by selecting constituents primarily based on criteria including the ESG rating and the company's industry-adjusted ESG score.
