

MSCI Europe ERC Index (EUR)

The **MSCI Europe Equal Risk Contribution (ERC) Index** captures large and mid cap representation across 15 Developed Markets (DM) countries in Europe*. With 402 constituents, the index seeks to capture an equity risk premium with equal risk contribution from all assets in the MSCI Europe Index. It employs an optimization based approach by optimizing MSCI Europe Index to achieve equal risk contribution across all assets in the MSCI Europe Index.

For a complete description of the index methodology, please see [Index methodology - MSCI](#).

The MSCI Europe ERC Index was launched on Oct 10, 2014. Data prior to the launch date is back-tested test (i.e. calculations of how the index might have performed over that time period had the index existed). There are frequently material differences between back-tested performance and actual results. Past performance – whether actual or back-tested – is no indication or guarantee of future performance.

ABOUT MSCI

MSCI is a leading provider of critical decision support tools and services for the global investment community. With over 50 years of expertise in research, data and technology, we power better investment decisions by enabling clients to understand and analyze key drivers of risk and return and confidently build more effective portfolios. We create industry-leading research-enhanced solutions that clients use to gain insight into and improve transparency across the investment process. To learn more, please visit www.msci.com.
