How we can help

Benchmarking and industry best practices

MSCI Corporate Sustainability Insights (CSI)

Measure and compare sustainability and climate data about your company against its peers, while identifying potential disclosure gaps through intuitive charts, graphs, and maps. Gain access to MSCI ESG Research's database of ESG Ratings and climate data across more than 10,000 public companies*. MSCI ESG Research is one of the largest providers of ESG data and analysis to public companies.

Engaging with industry experts

MSCI Corporate Sustainability Insights Plus (CSI Plus)

Deepen your understanding of the MSCI ESG Ratings methodology and process and gain insights when you need them. This service includes the data insights of the CSI solution as well as provides opportunities to communicate with MSCI ESG Research to help you enhance your understanding of the key drivers behind ESG Ratings and your company's positioning against industry best practices.

Assessing sustainability performance

MSCI Provisional ESG Ratings

Provisional ESG Ratings are intended to help privately held companies and non-rated issuers understand how they would be assessed by MSCI ESG Research and assigned an MSCI ESG Rating if they were part of MSCI's standard coverage universe. Provisional ESG Ratings can help with internal baselining, marketing purposes or support corporate activities such as IPOs, spin-offs or private sales. An assessment could be beneficial to non-rated companies aspiring to obtain information to help their efforts to establish credibility and attract investors.

Supporting corporate climate commitments

MSCI Carbon Markets

Use our carbon markets data and analytics to bolster all aspects of your climate strategy. Our solution is designed to harness the potential of carbon markets, offering carbon credit integrity and risk assessment, price discovery, forecasting and key policy tracking. We enable you to ensure cost-effective credit procurement, simplify efforts to complete disclosure requirements and connect your company's carbon credit strategies with your company's broader sustainability goals.

Sustainable corporate financing

Sustainability-linked financing

For companies seeking to borrow funds – and financial institutions aiming to lend them – successfully tapping into the sustainability-linked financing market can hinge on the quality of their sustainability data. Corporate issuers can license MSCI ESG Ratings and the underlying data to help them to promote a debt offering or utilize the data as a key performance indicator (KPI) for a sustainability-linked loan.

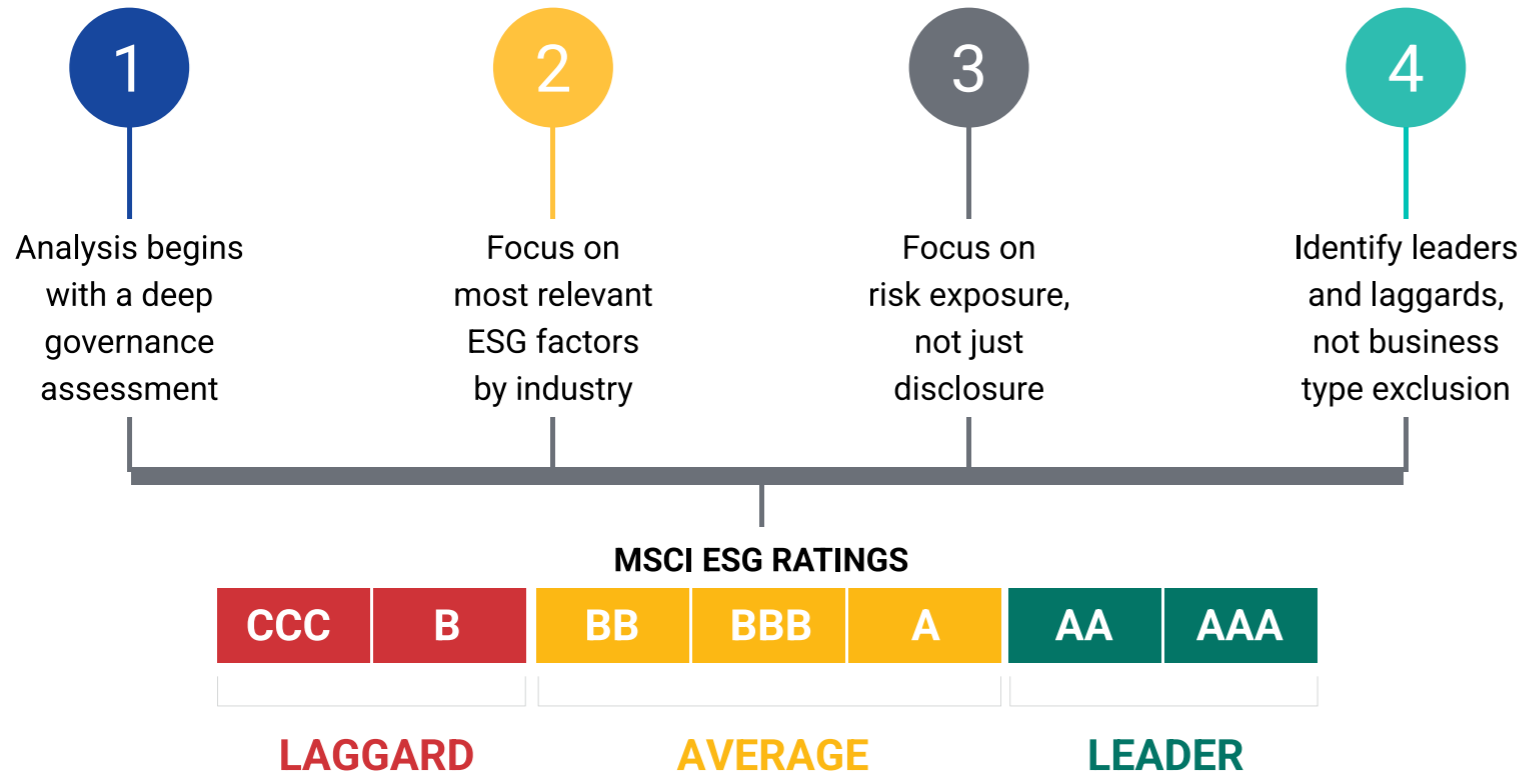

Second-Party Opinions (SPOs)

Assess the alignment of your green, social, or sustainable debt financing framework or related transactions through MSCI ESG Research's Second-Party Opinion solution, which considers alignment with International Capital Market Association (ICMA) or Loan Market Association (LMA) standards as well as the MSCI Labeled Bond and Loan Assessment Methodology.

How do MSCI ESG Ratings work?

We use an objective, rules-based methodology to identify industry leaders and laggards. We rate companies on a 'AAA to CCC' scale according to their exposure to ESG risks and how well they manage those risks relative to peers.

We rate over 17,500 companies (issuers including subsidiaries).*

We collect thousands of data points for each company which make up the underlying data of key issues. We have determined a handful of key issues to be financially relevant for each industry.

MSCI ESG Ratings are designed to help identify ESG risks and opportunities.

Please note that the issuers mentioned in MSCI ESG Research materials sometimes have commercial relationships with MSCI ESG Research and/or MSCI Inc. (collectively, "MSCI") and that these relationships create potential conflicts of interest. In some cases, the issuers or their affiliates purchase research or other products or services from one or more MSCI affiliates. In other cases, MSCI ESG Research rates financial products such as mutual funds or ETFs that are managed by MSCI's clients or their affiliates, or are based on MSCI Inc. Indexes. In addition, constituents in MSCI Inc. equity indexes include companies that subscribe to MSCI products or services. In some cases, MSCI clients pay fees based in whole or part on the assets they manage. MSCI ESG Research has taken a number of steps to mitigate potential conflicts of interest and safeguard the integrity and independence of its research and ratings. More information about these conflict mitigation measures is available in our Form ADV, available at <https://adviserinfo.sec.gov/firm/summary/169222>.

NONE OF THE INFORMATION PROVIDERS MAKES ANY EXPRESS OR IMPLIED WARRANTIES OR REPRESENTATIONS WITH RESPECT TO THE INFORMATION (OR THE RESULTS TO BE OBTAINED BY THE USE THEREOF), AND TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, EACH INFORMATION PROVIDER EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES (INCLUDING, WITHOUT LIMITATION, ANY IMPLIED WARRANTIES OF ORIGINALITY, ACCURACY, TIMELINESS, NON-INFRINGEMENT, COMPLETENESS, MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE) WITH RESPECT TO ANY OF THE INFORMATION.

Without limiting any of the foregoing and to the maximum extent permitted by applicable law, in no event shall any Information Provider have any liability regarding any of the Information for any direct, indirect, special, punitive, consequential (including lost profits) or any other damages even if notified of the possibility of such damages. The foregoing shall not exclude or limit any liability that may not be applicable law be excluded or limited, including without limitation (as applicable), any liability for death or personal injury to the extent that such injury results from the negligence or willful default of itself, its servants, agents or sub-contractors.

Information containing any historical information, data or analysis should not be taken as an indication or guarantee of any future performance, analysis, forecast or prediction. Past performance does not guarantee future results.

The Information may include "Signals," defined as quantitative attributes or the product of methods or formulas that describe or are derived from calculations using historical data. Neither these Signals nor any description of historical data are intended to provide investment advice or a recommendation to make (or refrain from making) any investment decision or asset allocation and should not be relied upon as such. Signals are inherently backward-looking because of their use of historical data, and they are not intended to predict the future. The relevance, correlations and accuracy of Signals frequently will change materially.

The Information should not be relied on and is not a substitute for the skill, judgment and experience of the user, its management, employees, advisors and/or clients when making investment and other business decisions. All Information is impersonal and not tailored to the needs of any person, entity or group of persons.

None of the Information constitutes an offer to sell (or a solicitation of an offer to buy), any security, financial product or other investment vehicle or any trading strategy.

It is not possible to invest directly in an index. Exposure to an asset class or trading strategy or other category represented by an index is only available through third party investable instruments (if any) based on that index. MSCI does not issue, sponsor, endorse, market, offer, review or otherwise express any opinion regarding any fund, ETF, derivative or other security, investment, financial product or trading strategy that is based on, linked to or seeks to provide an investment return related to the performance of any MSCI index (collectively, "Index Linked Investments"). MSCI makes no assurance that any Index Linked Investments will accurately track index performance or provide positive investment returns. MSCI Inc. is not an investment adviser or fiduciary and MSCI makes no representation regarding the advisability of investing in any Index Linked Investments.

Index returns do not represent the results of actual trading of investible assets/securities. MSCI maintains and calculates indexes, but does not manage actual assets. The calculation of indexes and index returns may deviate from the stated methodology. Index returns do not reflect payment of any sales charges or fees an investor may pay to purchase the securities underlying the index or Index Linked Investments. The imposition of these fees and charges would cause the performance of an Index Linked Investment to be different than the MSCI index performance.

The Information may contain back tested data. Back-tested performance is not actual performance, but is hypothetical. There are frequently material differences between back tested performance results and actual results subsequently achieved by any investment strategy.

Constituents of MSCI equity indexes are listed companies, which are included in or excluded from the indexes according to the application of the relevant index methodologies. Accordingly, constituents in MSCI equity indexes may include MSCI Inc., clients of MSCI or suppliers to MSCI. Inclusion of a security within an MSCI index is not a recommendation by MSCI to buy, sell, or hold such security, nor is it considered to be investment advice.

Data and information produced by various affiliates of MSCI Inc., including MSCI ESG Research LLC and Barra LLC, may be used in calculating certain MSCI indexes. More information can be found in the relevant index methodologies on www.msci.com.

MSCI receives compensation in connection with licensing its indexes to third parties. MSCI Inc.'s revenue includes fees based on assets in Index Linked Investments. Information can be found in MSCI Inc.'s company filings on the Investor Relations section of msci.com.
