GENERAL

MSCI uses the following main committees to provide overall oversight and governance for its indexes:

- The MSCI Index¹ - Oversight Committee and MSCI Real Estate – Oversight Committee (each, an “OC”)
- The MSCI Index - Risk and Regulatory Committee and MSCI Real Estate Index – Risk and Regulatory Committee (each, an “RRC”)
- The MSCI - Index Policy Committee (“IPC”)
- The Equity Index Committee (“EIC”) and the Real Estate Index Committee (“REIC”)

All of the committees are staffed solely by MSCI group company employees with extensive relevant experience. MSCI believes that its editorial and operational independence is critical to its objectivity, efficiency and avoiding conflicts of interest.

All committee members are expected to act with integrity as is required of all our employees according to our Code of Ethics and Business Conduct posted on www.msci.com.

All decisions taken by the committees are the responsibility of their members.

¹ For the purpose of this document, “MSCI Index” and “MSCI indexes” refer to MSCI’s equity and blended indexes.

THE INDEX POLICY COMMITTEE

DESCRIPTION

The IPC presides over major methodology developments and changes as well as market classification decisions. The IPC is an escalation point for the EIC for the MSCI indexes and the REIC for the MSCI asset-based and fund-based real estate indexes.

These terms of reference are reviewed and approved by the relevant OC annually.

RESPONSIBILITY

The key responsibilities of the IPC include, but are not limited to, the following:

- Review and approve new methodologies or methodology changes, as well as consultations, escalated by the EIC for the MSCI indexes and the REIC for the MSCI asset-based and fund-based real estate indexes.
- Make final decisions on market reclassifications for the MSCI equity indexes.
- Make final decisions on MSCI index and MSCI asset-based and fund-based real estate index terminations.
- Review summary of regular equity index rebalancing results for the MSCI Global Investable Market Indexes.
- Review and approve any other topics escalated by the EIC or REIC.

COMPOSITION

- The IPC is currently composed of six voting members comprised of senior members of MSCI's Index Research and firm management. All members are inside the MSCI Chinese Wall.
- Changes in membership are proposed by the IPC and approved by the CEO.

MEETINGS

- The IPC meets on an ad-hoc basis as required.
- IPC meetings require the attendance of at least three members.

- No substitutes and no delegates are accepted.
- The agendas for all IPC meetings contain the date, time, expected attendees and topics. All topics presented at the IPC generally have supporting documents.
- Generally, the minutes of all IPC meetings contain the date, time, attendees, topics discussed and decisions made.
- The secretary will record minutes of each meeting, which will be retained for at least five years.
- In instances when an IPC decision is required, while scheduling an IPC meeting is not possible within the required timeframe, such decision may be reached via email communication, provided at least three members of the IPC explicitly approve a proposal. In case of exceptionally time critical, typically market driven topics, consent of two IPC members may be sufficient.

The Information may not be modified, reverse-engineered, reproduced or disseminated in whole or in part without prior written permission from MSCI.

The Information may not be used to create derivative works or to verify or correct other data or information. For example (but without limitation), the Information may not be used to create indexes, databases, risk models, analytics, software, or in connection with the issuing, offering, sponsoring, managing or marketing of any securities, portfolios, financial products or other investment vehicles utilizing or based on, linked to, tracking or otherwise derived from the Information or any other MSCI data, information, products or services.

The user of the Information assumes the entire risk of any use it may make or permit to be made of the Information. NONE OF THE INFORMATION PROVIDERS MAKES ANY EXPRESS OR IMPLIED WARRANTIES OR REPRESENTATIONS WITH RESPECT TO THE INFORMATION (OR THE RESULTS TO BE OBTAINED BY THE USE THEREOF), AND TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, EACH INFORMATION PROVIDER EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES (INCLUDING, WITHOUT LIMITATION, ANY IMPLIED WARRANTIES OF ORIGINALITY, ACCURACY, TIMELINESS, NON-INFRINGEMENT, COMPLETENESS, MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE) WITH RESPECT TO ANY OF THE INFORMATION.

Without limiting any of the foregoing and to the maximum extent permitted by applicable law, in no event shall any Information Provider have any liability regarding any of the Information for any direct, indirect, special, punitive, consequential (including lost profits) or any other damages even if notified of the possibility of such damages. The foregoing shall not exclude or limit any liability that may not by applicable law be excluded or limited, including without limitation (as applicable), any liability for death or personal injury to the extent that such injury results from the negligence or willful default of itself, its servants, agents or sub-contractors.

Information containing any historical information, data or analysis should not be taken as an indication or guarantee of any future performance, analysis, forecast or prediction. Past performance does not guarantee future results.

The Information should not be relied on and is not a substitute for the skill, judgment and experience of the user, its management, employees, advisors and/or clients when making investment and other business decisions. All Information is impersonal and not tailored to the needs of any person, entity or group of persons.

None of the Information constitutes an offer to sell (or a solicitation of an offer to buy), any security, financial product or other investment vehicle or any trading strategy.

It is not possible to invest directly in an index. Exposure to an asset class or trading strategy or other category represented by an index is only available through third party investable instruments (if any) based on that index. MSCI does not issue, sponsor, endorse, market, offer, review or otherwise express any opinion regarding any fund, ETF, derivative or other security, investment, financial product or trading strategy that is based on, linked to or seeks to provide an investment return related to the performance of any MSCI index (collectively, "Index Linked Investments"). MSCI makes no assurance that any Index Linked Investments will accurately track index performance or provide positive investment returns. MSCI Inc. is not an investment adviser or fiduciary and MSCI makes no representation regarding the advisability of investing in any Index Linked Investments.

Index returns do not represent the results of actual trading of investable assets/securities. MSCI maintains and calculates indexes, but does not manage actual assets. Index returns do not reflect payment of any sales charges or fees an investor may pay to purchase the securities underlying the index or Index Linked Investments. The imposition of these fees and charges would cause the performance of an Index Linked Investment to be different than the MSCI index performance.

The Information may contain back tested data. Back-tested performance is not actual performance, but is hypothetical. There are frequently material differences between back tested performance results and actual results subsequently achieved by any investment strategy.

Constituents of MSCI equity indexes are listed companies, which are included in or excluded from the indexes according to the application of the relevant index methodologies. Accordingly, constituents in MSCI equity indexes may include MSCI Inc., clients of MSCI or suppliers to MSCI. Inclusion of a security within an MSCI index is not a recommendation by MSCI to buy, sell, or hold such security, nor is it considered to be investment advice.

Data and information produced by various affiliates of MSCI Inc., including MSCI ESG Research LLC and Barra LLC, may be used in calculating certain MSCI indexes. More information can be found in the relevant index methodologies on www.msci.com.

MSCI receives compensation in connection with licensing its indexes to third parties. MSCI Inc.'s revenue includes fees based on assets in Index Linked Investments. Information can be found in MSCI Inc.'s company filings on the Investor Relations section of www.msci.com.

MSCI ESG Research LLC is a Registered Investment Adviser under the Investment Advisers Act of 1940 and a subsidiary of MSCI Inc. Except with respect to any applicable products or services from MSCI ESG Research, neither MSCI nor any of its products or services recommends, endorses, approves or otherwise expresses any opinion regarding any issuer, securities, financial products or instruments or trading strategies and MSCI's products or services are not intended to constitute investment advice or a recommendation to make (or refrain from making) any kind of investment decision and may not be relied on as such. Issuers mentioned or included in any MSCI ESG Research materials may include MSCI Inc., clients of MSCI or suppliers to MSCI, and may also purchase research or other products or services from MSCI ESG Research. MSCI ESG Research materials, including materials utilized in any MSCI ESG Indexes or other products, have not been submitted to, nor received approval from, the United States Securities and Exchange Commission or any other regulatory body.

Any use of or access to products, services or information of MSCI requires a license from MSCI. MSCI, Barra, RiskMetrics, IPD, FEA, InvestorForce, and other MSCI brands and product names are the trademarks, service marks, or registered trademarks of MSCI or its subsidiaries in the United States and other jurisdictions.
