ABOUT MSCI 15
1 Executive Summary

This document details the MSCI ESG Fund Ratings methodology. We leverage MSCI ESG Ratings for over 7,500 companies (13,000 total issuers including subsidiaries) and more than 600,000 equity and fixed income securities globally to create ESG scores and metrics for approximately 32,000 multi-asset class Mutual Funds and ETFs globally. MSCI ESG Fund Ratings aims to provide fund-level transparency to help clients better understand and measure the ESG characteristics of the total portfolio, and rank or screen funds based on a diverse set of ESG exposure categories.

1.1 Product Features

MSCI ESG Fund Ratings clients receive access to a data feed of approximately 32,000 funds in the coverage universe.

1.1.1 MSCI ESG Fund Ratings (AAA-CCC)

The MSCI ESG Fund Ratings is designed to assess the resilience of a fund’s aggregate holdings to long term ESG risks. Highly rated funds consist of issuers with leading or improving management of key ESG risks.

1.1.2 Fund ESG Quality Score & E, S, G Scores (0-10)

Each fund in the coverage universe will receive an overall “Fund ESG Quality Score” (0-10) as well as an Environmental, Social and Governance Score (0-10). The overall “Fund ESG Quality Score” aggregates issuer-level ESG scores to provide investors with an indication of the overall fund-level ESG score based on the fund’s underlying holdings.

1.1.3 Percentile Rank

Also available are Global and Peer Group Percentile Ranks (0-100) calculated using fund-level “ESG Quality Scores” and the Lipper Global Classification for a definition of peer groups.

1.1.4 Over 200 ESG Metrics

Clients also have access to over 200 fund metrics to evaluate the ESG attributes of their fund and fall into three categories: sustainable impact, values alignment and risks.
• **Sustainable Impact** metrics to help investors measure fund exposure to publicly traded companies addressing core environmental and social challenges. May be used by impact-based investors with a preference to capture measurable social returns per dollar invested including clean technology exposure, community building, or access to healthcare.

• **Values alignment** metrics help investors screen for investments that align with ethical, religious, or political value. May be used by values-based investors with a preference to avoid businesses involved in tobacco, weapons manufacturing, or human rights violations.

• **Exposure to ESG risks** metrics to help investors understand fund exposure to ESG-related risks. May be used by long-horizon investors with a goal of limiting potential financial costs connected with issues like water scarcity, or carbon regulations.

### 1.1.5 Fund Ratings Reports

The MSCI ESG Fund Ratings Report highlights fund exposure to over 200 metrics organized under three themes: Values Alignment, Sustainable Impact and ESG Risks.
The updated report includes the following features:

- Indicates the top-level ESG Fund Rating as well as the Fund ESG Quality Score (0-10 scale) and fund peer group average for comparison purposes
- Highlights fund exposure to over 200 metrics organized under three themes: Values Alignment, Sustainable Impact and ESG Risks.
- Identifies the top 10 fund holdings with detail on Sustainable Impact Solutions revenue, Fossil Fuel ownership, SRI Exclusion, and Carbon Intensity
- Showcases the fund holdings’ ESG Fund Rating Distribution and the ESG Fund Rating momentum trend, either positive or negative, over time
- Provides the fund Carbon Intensity compared to the Peer Group Average and five MSCI Indexes.

1.1.6 Fund Ratings Badge

MSCI ESG Fund Ratings Badges are awarded to funds with qualifying ratings. Separate badges are available for meeting the requirements of Peer Rank Top 10%, Peer Rank Top 20%, Global Rank Top 10%, and Global Rank Top 20%.

MSCI ESG Research grants asset managers permission to use the MSCI ESG Fund Ratings Badge associated with their funds in public facing fund-related documents or web pages. Users are required to sign a no cost license with terms and conditions of use and required disclosures.

For more information please contact ESG Client Service at esgclientservice@msci.com.
2 Methodology

2.1 MSCI ESG Fund Ratings Inclusion Criteria

MSCI ESG Fund Ratings holdings data is sourced from Lipper. To be included in MSCI ESG Fund Ratings, a fund must pass the following three criteria:

1. 65% of the fund’s gross weight must come from covered securities.
   a. The coverage universe for issuers consists of MSCI ESG Ratings (over 7,500 companies and more than 600,000 equity and fixed income securities globally). See Appendix 1 for a detailed description of MSCI ESG Ratings coverage.
   b. Cash positions and other asset types not relevant for ESG analysis are removed prior to calculating a fund’s gross weight. See Appendix 3 for a full listing of excluded asset types.
   c. The absolute values of short positions are included in a fund’s gross weight calculation, but are treated as uncovered for ESG data
   d. Security asset type must have recourse to the rated issuer. See Appendix 2 for a list of eligible asset types.

2. Fund holdings date must be less than one year old.

3. Fund must have at least ten securities.

Fund ESG Coverage Calculation Example

As of March 1, 2019, there were over 126,000 equity, fixed income, and mixed asset class mutual funds and ETFs in the Lipper universe. Approximately 32,000 passed all necessary criteria to be included in the MSCI ESG Fund Ratings.

Upon request, MSCI ESG Research can provide fund metrics for funds excluded from MSCI ESG Fund Ratings due to falling below the 65% inclusion threshold. These
metrics will only be based upon covered holdings in the fund. As a result, they may not fully represent the fund’s ESG performance given the lack of coverage.

2.2 ESG Fund Rating

The top-rating, the “Fund ESG Rating”, is designed to assess the resilience of a fund’s aggregate holdings to long term ESG risks. Highly rated funds consist of issuers with leading or improving management of key ESG risks.

<table>
<thead>
<tr>
<th>ESG FUND RATINGS</th>
<th>WHAT IT MEANS</th>
</tr>
</thead>
<tbody>
<tr>
<td>AAA LEADER</td>
<td>The companies that the fund invests in tend to show strong and/or improving management of financially relevant environmental, social and governance issues. These companies may be more resilient to disruptions arising from ESG events.</td>
</tr>
<tr>
<td>AA AVERAGE</td>
<td>The fund invests in companies that tend to show average management of ESG issues, or in a mix of companies with both above-average and below-average ESG risk management.</td>
</tr>
<tr>
<td>B LAGGARD</td>
<td>The fund is exposed to companies that do not demonstrate adequate management of the ESG risks that they face or show worsening management of these issues. These companies may be more vulnerable to disruptions arising from ESG events.</td>
</tr>
</tbody>
</table>
The Fund ESG Rating is calculated as a direct mapping of “Fund ESG Quality Score” to letter rating categories.

<table>
<thead>
<tr>
<th>Fund ESG Quality Score</th>
<th>Fund ESG Rating</th>
</tr>
</thead>
<tbody>
<tr>
<td>8.6* - 10.0</td>
<td>AAA</td>
</tr>
<tr>
<td>7.1 - 8.6</td>
<td>AA</td>
</tr>
<tr>
<td>5.7 - 7.1</td>
<td>A</td>
</tr>
<tr>
<td>4.3 - 5.7</td>
<td>BBB</td>
</tr>
<tr>
<td>2.9 - 4.3</td>
<td>BB</td>
</tr>
<tr>
<td>1.4 - 2.9</td>
<td>B</td>
</tr>
<tr>
<td>0.0 - 1.4</td>
<td>CCC</td>
</tr>
</tbody>
</table>

*Appearance of overlap in the score ranges is due to rounding. Every possible score falls within the range of only one letter rating. The 0 to 10 scale is divided into 7 equal parts, each corresponding to a letter rating.

### 2.3 Fund ESG Quality Score

The “Fund ESG Quality Score” assesses the resilience of a fund’s aggregate holdings to long term ESG risks. Highly rated funds consist of issuers with leading or improving management of key ESG risks, based on a granular breakdown of each issuer’s business: its core product or business segments, the locations of its assets or revenues, and other relevant measures such as outsourced production. The “Fund ESG Quality Score” is provided on a 0-10 score, with 0 and 10 being the respective lowest and highest possible fund scores.

The “Fund ESG Quality Score” is assessed using the underlying holding’s “Overall ESG Scores”, “Overall ESG Ratings”, and “Overall ESG Rating Trends”. It is calculated in a series of 3 steps.

**Step 1:** Calculate the “Fund Weighted Average ESG Score” of the underlying holding’s “Overall ESG Scores”. The Overall ESG Scores represent either the ESG Ratings Final Industry-Adjusted Score or Government Adjusted ESG Score of the issuer. Methodology for the issuer level scores are available in the MSCI ESG Ratings Methodology document. The table below demonstrates how the “Fund Weighted Average ESG Score” is calculated. Note that in this example, Security E does not have an ESG Score. Security E is therefore “dropped” from analysis, and the weights of the remaining securities are normalized to 100%. The normalized weights and ESG scores are then used to calculate the “Fund Weighted Average ESG Score” of 6.6.
Step 1 Example

<table>
<thead>
<tr>
<th>Weight</th>
<th>ESG Score</th>
<th>ESG Rating</th>
<th>Normalized Weight</th>
<th>Normalized Weight x Score</th>
</tr>
</thead>
<tbody>
<tr>
<td>Security A</td>
<td>20%</td>
<td>2.5</td>
<td>B</td>
<td>0%</td>
</tr>
<tr>
<td>Security B</td>
<td>40%</td>
<td>7.0</td>
<td>A</td>
<td>0%</td>
</tr>
<tr>
<td>Security C</td>
<td>8%</td>
<td>8.0</td>
<td>AA</td>
<td>-1</td>
</tr>
<tr>
<td>Security D</td>
<td>12%</td>
<td>6.0</td>
<td>A</td>
<td>1%</td>
</tr>
<tr>
<td>Security E</td>
<td>20%</td>
<td>N/A</td>
<td>N/A</td>
<td>N/A</td>
</tr>
<tr>
<td>Total</td>
<td>100%</td>
<td>100%</td>
<td>5.8</td>
<td></td>
</tr>
</tbody>
</table>

Step 2: Calculate adjustment % based on fund exposure to “Fund ESG Laggards (%)”, “Fund ESG Trend Negative (%),” and “Fund ESG Trend Positive (%).”

Step 2 Example

<table>
<thead>
<tr>
<th>Fund Factors</th>
<th>Fund Values</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fund ESG Trend Positive</td>
<td>12%</td>
</tr>
<tr>
<td><strong>Minus</strong> Fund ESG Laggards</td>
<td>20%</td>
</tr>
<tr>
<td><strong>Minus</strong> Fund ESG Trend Negative</td>
<td>8%</td>
</tr>
<tr>
<td>= Adjustment %</td>
<td>-16%</td>
</tr>
</tbody>
</table>

Step 3: Multiply the “Fund Weighted Average ESG Score” by (1 + Adjustment %).

Step 3 Example

<table>
<thead>
<tr>
<th>Fund Factors</th>
<th>Fund Values</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fund Weighted Average ESG Score</td>
<td>5.83</td>
</tr>
<tr>
<td>X Adjustment %</td>
<td>-16%</td>
</tr>
<tr>
<td>= ESG Quality Score</td>
<td>4.89</td>
</tr>
</tbody>
</table>

Calculation Table:
2.4 Peer Group Percentiles

Each fund’s “ESG Quality Score” is also shown as a percentile in its peer group. The “Fund ESG Quality Score – Peer Percentile” represents the percentage of funds in a fund’s peer group with an “ESG Quality Score” equal to, or lower than, the fund’s “ESG Quality Score”.

The peer groups are defined using the Lipper Global Classification Scheme. The following criteria must be met for a fund to receive a “Fund ESG Quality Score – Peer Percentile”:

- Fund ESG Trend Positive
- Fund ESG Trend Negative
- Fund ESG Laggards

The following table provides the weighted average ESG score, adjustment, and final ESG quality score for a sample fund:

<table>
<thead>
<tr>
<th>Sample Fund</th>
<th>Weighted Average ESG Score</th>
<th>Adjustment</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td>(+) Fund ESG Trend Positive</td>
</tr>
<tr>
<td></td>
<td></td>
<td>(-) Fund ESG Trend Negative</td>
</tr>
<tr>
<td></td>
<td></td>
<td>(-) Fund ESG Laggards</td>
</tr>
<tr>
<td>Fund ESG Score Adjustment (%)</td>
<td>-16.00%</td>
<td>Fund ESG Score Adjustment</td>
</tr>
<tr>
<td>ESG Quality Score</td>
<td>4.89</td>
<td>ESG Fund Rating</td>
</tr>
</tbody>
</table>
1. The fund must be categorized by the Lipper Global Classification scheme.

2. The peer group must contain at least 30 funds.

3. The standard deviation of the Fund ESG Quality Score within the peer group must be greater than, or equal to, 0.1.

2.5 Weighted Average Carbon Intensity

The Weighted Average Carbon Intensity measures a fund’s exposure to carbon intensive companies. The figure is the sum of security weight (normalized for corporate positions only) multiplied by the security Carbon Intensity.

2.6 Revenue Exposure to Sustainable Impact Solutions (%)

A portfolio’s exposure to Sustainable Impact Solutions is the portfolio weighted average of each issuer’s percent of revenue generated by Sustainable Impact Solutions goods and services. Additionally, Sustainable Impact Solutions revenue from companies with negative externalities is excluded. Negative externalities refer to very severe and severe ESG controversies, ESG Ratings of CCC and B, direct involvement in predatory lending, involvement in controversial weapons, more than 5% revenue from conventional weapons or firearms, and more than 10% revenue from alcohol or tobacco production.

2.7 SRI Screening Criteria Exposure (%)

The percentage of portfolio’s market value exposed to companies flagged for primary (e.g. producer, operator) or secondary (e.g. retailer, distributor, supplier) involvement above a standard revenue threshold in one or more standard SRI exclusion metrics (alcohol, civilian firearms, gambling, weapons, cluster bombs, landmines, nuclear power, GMOs, and tobacco).

2.8 Global Percentiles

Every fund included in MSCI ESG Fund Ratings receives a “Fund ESG Quality Score – Global Percentile”. The Global Percentile notes the percentage of funds, covered by MSCI ESG Fund Ratings, with a score lower than, or equal to, a fund’s “ESG Quality Score”. Considered in conjunction, the Global and Peer Percentiles position a fund from both an absolute (product-wide) and relative (peer category) perspective.

2.9 Treatment of Cash

Cash holdings (and other asset types listed in Appendix 3) are removed prior to calculating Fund ESG Coverage (%). Cash is removed because it is outside the scope
of ESG relevancy. Including it in the coverage figure would lead to the undesired result of funds failing to meet the coverage threshold due to cash allocations.

The weight of cash is included in all metrics that measure exposure to specific criteria (e.g. Tobacco, Fossil Fuel Reserves, ESG Laggards, etc.). Excluding cash from exposure metrics would generate overstated results.

2.10 Treatment of Short Positions

When calculating “Fund ESG Coverage (%), short positions are always treated as uncovered, even if held as a security of an issuer within ESG coverage. By including the absolute value of short positions in the uncovered portion of a fund, the coverage % will not overstate ESG coverage.

Although short positions are included in the gross value when calculating coverage, they are removed prior to calculating the rest of the MSCI ESG Fund Ratings results. This is because the interpretation of short positions, from an ESG perspective, varies widely based on use case and the specific metric being considered.
Appendices

Appendix 1: MSCI ESG Ratings Coverage

The ESG Ratings coverage universe includes over 7,500 companies (13,000 total issuers including subsidiaries) and more than 600,000 equity and fixed income securities globally. As April 2019 the coverage universe is comprised of:

- MSCI World Index
- MSCI Emerging Markets Index
- MSCI US Investible Market Index (IMI)
- MSCI Canada IMI+
- MSCI Europe IMI+
- MSCI UK IMI+
- MSCI Nordic IMI+
- MSCI Australia IMI+
- MSCI South Africa IMI
- MSCI EFM Africa
- MSCI Japan IMI
- MSCI China A International
- MSCI Hong Kong IMI
- MSCI Malaysia IMI
- MSCI Singapore IMI
- MSCI World IMI
- MSCI Emerging Markets IMI

MSCI ESG Ratings covers over 85% of market value of a widely used global fixed income benchmark, including:

- Approximately 95% of the corporate investment grade (listed and non-listed)
- Approximately 95% of the covered bonds
- Approximately 99% of the treasuries/Sovereign**
- Approximately 91% of the government related (ex-Sovereign)**

Approximately 85% of global high yield
Appendix 2: Eligible Asset Types

ESG assessments are generally done at the issuer level. Where an asset has exposure to an underlying issuer, we attempt to map the ESG characteristics of that issuer. For instance, we would map issuer analysis to both a bond and to a derivative based on that bond, to the extent possible. We do not, however, map in cases where there is exposure to multiple underlying issuers, such as index futures. Following is a list of asset types that are eligible for ESG coverage. Asset types outside of this list are not included in MSCI ESG Fund Ratings analysis:

<table>
<thead>
<tr>
<th>Asset Type</th>
<th>Depository Receipt</th>
<th>Option on Future</th>
</tr>
</thead>
<tbody>
<tr>
<td>Agency Security</td>
<td>Depository Receipt</td>
<td>Preferred Shares</td>
</tr>
<tr>
<td>American Depository Receipt</td>
<td>Equity Future</td>
<td>Preferred Security</td>
</tr>
<tr>
<td>Bank Loan</td>
<td>Equity Option</td>
<td>Preferred Security</td>
</tr>
<tr>
<td>Bond Future</td>
<td>Equity Warrant</td>
<td>Provincial Bond</td>
</tr>
<tr>
<td>Certificate</td>
<td>Global Depository Receipt</td>
<td>Real Estate Invst. Trust</td>
</tr>
<tr>
<td>Commercial Paper</td>
<td>Government Debt</td>
<td>Rights</td>
</tr>
<tr>
<td>Common Shares</td>
<td>International Depository Receipt</td>
<td>Supranational</td>
</tr>
<tr>
<td>Convertible Bond</td>
<td>Limited Partnership</td>
<td>Tracking Instrument</td>
</tr>
<tr>
<td>Convertible Note</td>
<td>Loan</td>
<td>Treasury Bill</td>
</tr>
<tr>
<td>Corporate Debt</td>
<td>Municipal bond</td>
<td>Units</td>
</tr>
</tbody>
</table>

Appendix 3: Excluded Asset Types

Some asset types are out of scope for ESG analysis. They are removed from a fund’s holdings, prior to calculating both coverage and ESG analysis, so that the results are reflective only of the portion of the fund relevant to ESG considerations. Following is a list of asset types that are removed prior to calculating fund results:

<table>
<thead>
<tr>
<th>Asset Type</th>
<th>Cash Equivalent</th>
<th>FX Forward</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cash</td>
<td>Cash Options</td>
<td>Interest Rate Swap</td>
</tr>
<tr>
<td>Cash 120 days</td>

ABOUT MSCI ESG RESEARCH PRODUCTS AND SERVICES
MSCI ESG Research products and services are provided by MSCI ESG Research LLC, and are designed to provide in-depth research, ratings and analysis of environmental, social and governance-related business practices to companies worldwide. ESG ratings, data and analysis from MSCI ESG Research LLC. are also used in the construction of the MSCI ESG Indexes. MSCI ESG Research LLC is a Registered Investment Adviser under the Investment Advisers Act of 1940 and a subsidiary of MSCI Inc.

ABOUT MSCI
MSCI is a leader provider of critical decision support tools and services for the global investment community. With over 45 years of expertise in research, data and technology, we power better investment decisions by enabling clients to understand and analyze key drivers of risk and return and confidently build more effective portfolios. We create industry-leading research-enhanced solutions that clients use to gain insight into and improve transparency across the investment process.

The Information may not be modified, reverse-engineered, reproduced or redisseminated in whole or in part without prior written permission from MSCI.

The Information may not be used to create derivative works or to verify or correct other data or information. For example (but without limitation), the Information may not be used to create indexes, databases, risk models, analytics, software, or in connection with the issuing, offering, sponsoring, managing or marketing of any securities, portfolios, financial products or other investment vehicles utilizing or based on, linked to, tracking or otherwise derived from the Information or any other MSCI data, information, products or services.

The user of the Information assumes the entire risk of any use it may make or permit to be made of the Information. NONE OF THE INFORMATION PROVIDERS MAKES ANY EXPRESS OR IMPLIED WARRANTIES OR REPRESENTATIONS WITH RESPECT TO THE INFORMATION (OR THE RESULTS TO BE OBTAINED BY THE USE THEREOF), AND TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, EACH INFORMATION PROVIDER EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES OF ORIGINALITY, ACCURACY, TIMELINESS, NON-INFRINGEMENT, COMPLETENESS, MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE WITH RESPECT TO ANY OF THE INFORMATION.

Without limiting any of the foregoing and to the maximum extent permitted by applicable law, in no event shall any Information Provider have any liability regarding any of the Information for any direct, indirect, special, punitive, consequential (including lost profits) or any other damages even if notified of the possibility of such damages. The foregoing shall not exclude or limit any liability that may not by applicable law be excluded or limited, including without limitation (as applicable), any liability for death or personal injury to the extent that such injury results from the negligence or willful default of itself, its servants, agents or sub-contractors.

Information containing any historical information, data or analysis should not be taken as an indication or guarantee of any future performance, analysis, forecast or prediction. Past performance does not guarantee future results.

The Information should not be relied on and is not a substitute for the skill, judgment and experience of the user, its management, employees, advisors and/or clients when making investment and other business decisions. All Information is impersonal and not tailored to the needs of any person, entity or group of persons.

None of the information constitutes an offer to sell (or a solicitation of an offer to buy), any security, financial product or other investment vehicle or any trading strategy.

It is not possible to invest directly in an index. Exposure to an asset class or trading strategy or other category represented by an index is only available through third party investable instruments (if any) based on that index. MSCI does not issue, sponsor, endorse, market, offer, review or otherwise express any opinion regarding any fund, ETF, derivative or other security, investment, financial product or trading strategy that is based on, linked to or seeks to provide an investment return related to the performance of any MSCI index (collectively, "Index Linked Investments"). MSCI makes no assurance that any Index Linked Investments will accurately track index performance or provide positive investment returns. MSCI Inc. is not an investment adviser or fiduciary and MSCI makes no representation regarding the advisability of investing in any Index Linked Investments.

Index returns do not represent the results of actual trading of investable assets/securities. MSCI maintains and calculates indexes, but does not manage actual assets. Index returns do not reflect payment of any sales charges or fees an investor may pay to purchase the securities underlying the index or Index Linked Investments. The imposition of these fees and charges would cause the performance of an Index Linked Investment to be different than the MSCI index performance.

The Information may contain back tested data. Back-tested performance is not actual performance, but is hypothetical. There are frequently material differences between back tested performance results and actual results subsequently achieved by any investment strategy.

Constituents of MSCI equity indexes are listed companies, which are included in or excluded from the indexes according to the application of the relevant index methodologies. Accordingly, constituents in MSCI equity indexes may include MSCI Inc., clients of MSCI or suppliers to MSCI. Inclusion of a security within an MSCI index is not a recommendation by MSCI to buy, sell, or hold such security, nor is it considered to be investment advice.

Data and information produced by various affiliates of MSCI Inc., including MSCI ESG Research LLC and Barra LLC, may be used in calculating certain MSCI indexes. More information can be found in the relevant index methodologies on www.msci.com.

MSCI receives compensation in connection with licensing its indexes to third parties. MSCI Inc.’s revenue includes fees based on assets in Index Linked Investments. Information can be found in MSCI Inc.’s company filings on the Investor Relations section of www.msci.com.

MSCI ESG Research LLC is a Registered Investment Adviser under the Investment Advisers Act of 1940 and a subsidiary of MSCI Inc. Except with respect to any applicable products or services from MSCI ESG Research, neither MSCI nor any of its products or services recommends, endorses, approves or otherwise expresses any opinion regarding any issuer, securities, financial products or instruments or trading strategies and MSCI’s products or services are not intended to constitute investment advice or a recommendation to make (or refrain from making) any kind of investment decision and may not be relied on as such. Issuers mentioned or included in any MSCI ESG Research materials may include MSCI Inc., clients of MSCI or suppliers to MSCI, and may also purchase research or other products or services from MSCI ESG Research. MSCI ESG Research materials, including materials utilized in any MSCI ESG indexes or other products, have not been submitted to, nor received approval from, the United States Securities and Exchange Commission or any other regulatory body.

Any use of or access to products, services or information of MSCI requires a license from MSCI. MSCI, Barra, RiskMetrics, IPD and other MSCI brands and product names are the trademarks, service marks, or registered trademarks of MSCI or its subsidiaries in the United States and other jurisdictions. The Global Industry Classification Standard (GICS) was developed by and is the exclusive property of MSCI and Standard & Poor’s. “Global Industry Classification Standard (GICS)” is a service mark of MSCI and Standard & Poor’s.

MIFID2/MIFIR notice: MSCI ESG Research LLC does not distribute or act as an intermediary for financial instruments or structured deposits, nor does it deal on its own account, provide execution services for others or manage client accounts. No MSCI ESG Research product or service supports, promotes or is intended to support or promote any such activity. MSCI ESG Research is an independent provider of ESG data, reports and ratings based on published methodologies and available to clients on a subscription basis.
