

MSCI ESG CLIMATE CHANGE SOLUTIONS

FROM MSCI ESG RESEARCH INC.

For more than 20 years, MSCI ESG Research has worked with institutional investors to incorporate climate change considerations in their investment process by providing an extensive view of climate change risks and opportunities across multiple dimensions: emissions data, fossil fuel exposure, management assessment and clean technology exposure. Our Climate Change Solutions are designed to support investors seeking to achieve a range of objectives, including measuring and reporting on climate risk exposure, implementing low carbon and fossil fuel-free strategies, and factoring climate change research into their risk management processes.

KEY FEATURES AND BENEFITS

Climate Change Risk Assessment

Assessment of corporate issuers' carbon exposure and management practices to identify leaders and laggards when it comes to preparedness for transition to a low carbon economy.

Climate Risk Exposure

Access climate risk exposure in the form of Scope 1, 2 and 3 carbon emissions and intensities, both as reported and estimated. Access quantitative data on reserves by fossil fuel type and revenue screens, as well as granular power generation data.

Climate Opportunity Exposure

Access detailed information on the percentage of revenue companies derive from Alternative Energy, Energy Efficiency, Green Building, Pollution Prevention or Sustainable Water.

Off the Shelf Tools for Fossil Fuel Free and Low Carbon Approaches

Access pre-defined screens to facilitate the implementation of a fossil fuel free or low carbon strategy.

Integrated Analytics

Climate Change Research is available on various MSCI platforms, including: ESG Manager, BarraOne, BPM, RiskManager.

Identify Targets for Engagement

Climate Change Solutions can help institutional investors prioritize their engagement strategies, allowing them, for example, to identify large reserve holders and emitters in their portfolios that also lack a strong carbon management strategy.

Extensive Equity and Fixed Income Coverage

Climate Change Solutions offer evaluation of +8,900 companies and 200 sovereign issuers, providing extensive coverage on equity and fixed income portfolios. Research is produced 100% in-house, updated on an annual basis and submitted to companies for factual accuracy.

Flexible Application

Adjust screening thresholds and select metrics to tailor to client preferences. Combine MSCI ESG Carbon Metrics with clean technology data from MSCI ESG Environmental Impact and carbon management scores from MSCI ESG Ratings for development of comprehensive and customized carbon strategies on MSCI ESG Manager and MSCI analytics platforms.
