

FORMAL INDEX COMPLAINT HANDLING POLICY AND PROCEDURE

MSCI

December 2019

POLICY STATEMENT

We engage with clients and market participants in a variety of ways. For example, we issue public consultations, host client/industry events and have client services functions that support questions regarding our MSCI indexes. Those discussions and channels are not considered part of the formal index complaints process and are not part of the process outlined in this policy.

While we strive to provide quality products and services, if a client, market participant or other party has a formal index complaint that they wish to make about any MSCI index, then this policy applies and the communication channel as described below must be followed. Formal index complaints include complaints regarding:

- whether a specific index appropriately represents the market, segment or strategy it seeks to measure,
- a proposed change to the index determination process,
- an application of the methodology in relation to a specific index determination, and
- other decisions in relation to the index determination process.

PROCESS

Submitting a Formal Index Complaint

Formal index complaints must be submitted to MSCI by completing the web form on the Index Regulation page of our website at: <https://www.msci.com/index-regulation>.

To ensure the complaint is afforded the appropriate attention, formal index complaints will only be accepted through the communication channel described above and will not be accepted through phone calls or through other communication channels (except as described below).

If for any reason the web form referenced above does not work, the submissions can be made as follows:

Formal index complaints can be submitted by sending an email to EquityIndexComplaints@msci.com for MSCI equity indexes, and FixedIncomeIndexComplaints@msci.com for MSCI fixed income indexes and RealEstateIndexComplaints@msci.com for MSCI Private Real Assets Indexes. The complaint must include:

- the full name of the complainant
- company name (if applicable)

- description of the complaint including the name of the index, the date of the issue, and a detailed description of the issue and its impact.

Without that minimum set of information, we will not be able to investigate or process the complaint.

Investigation of Formal Index Complaints

MSCI has a number of procedures in place to ensure that formal index complaints are conducted in a timely and fair manner.

- Formal index complaints are managed through a complaints handling system. This system is denoted as a process which is Outside the Chinese Wall.
- The MSCI Legal and Compliance department will investigate the complaint.
- If a member of Legal and Compliance is directly involved in the subject matter of the complaint, then he or she will be recused from the complaint review process.
- The complaint will be escalated as appropriate within MSCI, depending on the nature and subject matter of the complaint.

If, as a result of the investigation, a material change to an index is warranted, the change will be announced before it is made and before the complainant is notified.

The information provided by the complainant may be used throughout the investigation and reporting processes and, as such, may not be kept confidential (in particular in connection with any related legal, regulatory or other types of proceedings).

The complainant will be notified in writing (via email) within a reasonable period of time following the outcome of the investigation, unless such communication would be contrary to law or regulation or the objectives of public policy.

Retaining Records

The relevant records concerning the complaint (e.g., formal index complaint and any records submitted by the complainant) will be kept for a minimum period of five years, subject to applicable law or regulation.

The foregoing shall not exclude or limit any liability that may not be applicable law be excluded or limited, including without limitation (as applicable), any liability for death or personal injury to the extent that such injury results from the negligence or willful default of itself, its servants, agents or sub-contractors.

Information containing any historical information, data or analysis should not be taken as an indication or guarantee of any future performance, analysis, forecast or prediction. Past performance does not guarantee future results.

The Information should not be relied on and is not a substitute for the skill, judgment and experience of the user, its management, employees, advisors and/or clients when making investment and other business decisions. All Information is impersonal and not tailored to the needs of any person, entity or group of persons.

None of the Information constitutes an offer to sell (or a solicitation of an offer to buy), any security, financial product or other investment vehicle or any trading strategy.

It is not possible to invest directly in an index. Exposure to an asset class or trading strategy or other category represented by an index is only available through third party investable instruments (if any) based on that index. MSCI does not issue, sponsor, endorse, market, offer, review or otherwise express any opinion regarding any fund, ETF, derivative or other security, investment, financial product or trading strategy that is based on, linked to or seeks to provide an investment return related to the performance of any MSCI index (collectively, “Index Linked Investments”). MSCI makes no assurance that any Index Linked Investments will accurately track index performance or provide positive investment returns. MSCI Inc. is not an investment adviser or fiduciary and MSCI makes no representation regarding the advisability of investing in any Index Linked Investments.

Index returns do not represent the results of actual trading of investible assets/securities. MSCI maintains and calculates indexes, but does not manage actual assets. Index returns do not reflect payment of any sales charges or fees an investor may pay to purchase the securities underlying the index or Index Linked Investments. The imposition of these fees and charges would cause the performance of an Index Linked Investment to be different than the MSCI index performance.

The Information may contain back tested data. Back-tested performance is not actual performance, but is hypothetical. There are frequently material differences between back tested performance results and actual results subsequently achieved by any investment strategy.

Constituents of MSCI equity indexes are listed companies, which are included in or excluded from the indexes according to the application of the relevant index methodologies. Accordingly, constituents in MSCI equity indexes may include MSCI Inc., clients of MSCI or suppliers to MSCI. Inclusion of a security within an MSCI index is not a recommendation by MSCI to buy, sell, or hold such security, nor is it considered to be investment advice.

Data and information produced by various affiliates of MSCI Inc., including MSCI ESG Research LLC and Barra LLC, may be used in calculating certain MSCI indexes. More information can be found in the relevant index methodologies on www.msci.com.

MSCI receives compensation in connection with licensing its indexes to third parties. MSCI Inc.’s revenue includes fees based on assets in Index Linked Investments. Information can be found in MSCI Inc.’s company filings on the Investor Relations section of www.msci.com.
