

MSCI Emerging Markets Sovereign Bond Index (MESBI)

The MSCI Emerging Markets Sovereign Bond Index is constructed to measure the performance of USD denominated bonds issued by the Emerging Markets (EM) sovereign and quasi-sovereign entities. The spirit of the Index design is to be representative of the market, as well as to be replicable by the global institutional investors.

The MSCI Emerging Markets Sovereign Bond Index (MESBI) was launched on 5th Feb 2024. Data prior to the launch date is back-tested data (i.e., calculations of how the index might have performed over that time period had the index existed). There are frequently material differences between back-tested performance and actual results. Past performance – whether actual or back-tested – is no indication or guarantee of future performance.

Index Framework

The MSCI Emerging Markets Sovereign Bond Index is constructed by selecting fixed coupon paying USD bonds issued by emerging market sovereign or quasi-sovereign entities. Emerging Markets are defined as per the Economic Development pillar of the MSCI Fixed Income Market Classification Framework. Bonds eligible for index inclusion should have a minimum notional amount outstanding of USD 500 million and maturity great than or equal to 1 year (new additions should have time to maturity greater than or equal to 1 ½ years) as measured from the Rebalancing Date.

The composition of the MSCI Emerging Markets Sovereign Bond Index is reviewed monthly, with the Rebalancing Date being the first business date of the month.

This summary is provided for illustrative purposes only and does not include all material elements of the index or its methodology. For a complete description of the index methodology, please see [Index methodology - MSCI](#)

ABOUT MSCI INC.
