

MSCI Thematics

Helping Active Managers to benefit from thematic investing

Thematic investing is a top-down investment approach which capitalizes on opportunities created by trends that are structural and transformative in nature, rather than short-term shifts, spanning across four themes - Environment & Resources, Transformative technologies, Health & Healthcare, and Society & Lifestyle.

Active Managers gain a clearer view of thematic fund performance

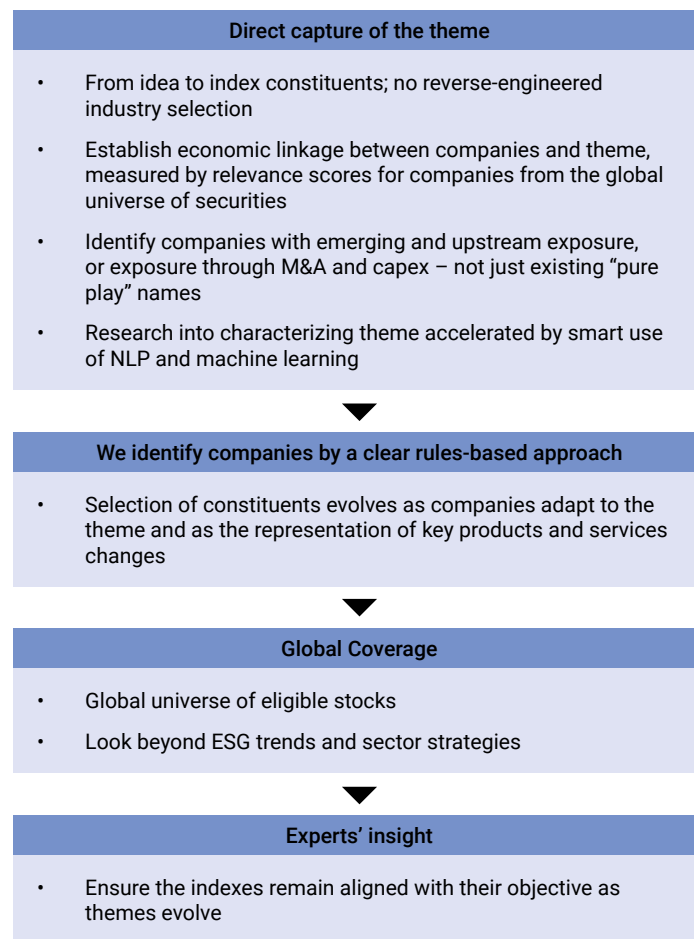

Active Managers with a strong thematic fund offering are now benchmarking their strategies against MSCI Thematic indexes or using our Thematic constituent universe.

How Active Managers can benefit from Thematics

Active Managers can benefit from specific advantages that our Thematic Indexes offer.

- 1 Use MSCI thematic indexes as a constituent universe for active strategies
- 2 Provide additional reporting on theme exposures, attribution and performance to end investors
- 3 Understand how your current portfolio is exposed to key long-term megatrends and themes
- 4 Manage and control these thematic exposures in a deliberate way

Active Managers can benefit from our approach to Thematic Index construction

MSCI's range of megatrend indexes

Thematic investing helps you to gain an appropriate exposure to such diverse themes as:

Transformative Technologies

Environment & Resources

Health & Healthcare

Society & Lifestyle

We give you a broader picture, helping you to explore the themes of the future. Our thematic offerings enhance other analytical tools and complement traditional country, industry and factor lenses when analysing and designing portfolios.

At MSCI we have a long history of anticipating emerging trends. Our rules-based methodology, in-depth insights from leading industry experts, and broad range of megatrend themes, help you understand the structural changes happening around us – and translate this knowledge into a better diversified long-term investment strategy.

Bring the future into view with MSCI Thematic Indexes

MSCI's Thematic Indexes are constructed by including companies that may be impacted by emerging technological, environmental, innovative healthcare and societal trends.
