

Overview of SEC 18f-4 Report

Thank you for joining me in this session where I will walk you through MSCI solution to support the analysis requirements regarding the SEC Rule 18f-4.

The purpose of this regulation is to provide an approach to regulate the use of fund derivatives to address investor protection concerns. In order to do so, a fund needs to implement a derivatives risk management program, including stress testing, backtesting, internal reporting, and escalation. MSCI can help you support these requirements through our SEC Derivatives package. In this video, I will walk you through what our offering includes, in going through the details of our SEC Derivatives dashboard report.

Our SEC Derivative dashboard report was built to comply with the specific requirements from the regulation. In the top-right table, you'll be able to see a 'Limit' section. In this section, we define the Absolute and Relative VaR. If the client chooses to use Relative VaR, they can define an index as a benchmark, or a fund's own portfolio, which doesn't include derivatives as a reference portfolio. Under the Relative VaR, the fund is not permitted to exceed 200% of the VaR of the fund's designated reference portfolio. On the other hand, if a client is unable to identify a designated reference index, they can use Absolute VaR test. We offer this analysis in the report as well. so clients can verify if, according to the rule, the Absolute VaR is less than 20% of the fund net assets.

The exposure to derivatives is also an important part of this regulation. In this same section, you can look at the derivative exposure of your portfolio in a gross and net value. The derivative exposure limit is 10% for the portfolio. Funds are exempted to report to the SEC if the exposure to derivatives is less than 10% of net assets.

In the left section, you can see the portfolio value statistics, where including Present Value, Gross Notional, VaR, Expected Shortfall, Delta Adjusted, and Bond Equivalents value. These hard values are used according to the regulation requirements, and the position types in your portfolio. In the next sections, we can look at the Gross Notional exposure by asset type and the VaR by risk type. While on the right side, you can look at the stress test based on our extensive library of predefined historical events and forward-looking macro events. In this section, you can look at how your portfolio will react under these stress tests.

In the next pages, we provide supportive analysis in order to comply with the risk management program suggested by the regulation. We provide a breakdown of VaR by asset type, a stress test by asset type, and a derivative exposure by asset category. In each of these sections we are using the same asset category and we are providing more details in this report.

In the next section, we continue providing supportive analysis, such as Marginal VaR summary and Incremental VaR summary. All these sections are supported by a diagnostic report that is supplied as well, accompanying this report. The diagnostic report is an Excel version of this dashboard that you're looking at with position-level information of all the statistics and methodologies used in this report. It's important to notice that the client can define their own VaR methodology and choose the risk model that they feel comfortable with. The options for VaR methodology are Monte Carlo, Historical, and Biometric. You can choose as well your decay factor and your calibration period, in order to support the VaR calculation that you're looking for.

As part of the regulation, we're also including a VaR testing report. In this VaR testing report, we're providing the accessions in the analysis that we're using for the Daily VaR and Simulated P&L. These reports are a part of our SEC Derivative package. this is all for this session, and thank you for being here with us.

About MSCI

MSCI is a leading provider of critical decision support tools and services for the global investment community. With over 50 years of expertise in research, data and technology, we power better investment decisions by enabling clients to understand and analyze key drivers of risk and return and confidently build more effective portfolios. We create industry-leading research-enhanced solutions that clients use to gain insight into and improve transparency across the investment process. To learn more, please visit www.msci.com.

This document and all of the information contained in it, including without limitation all text, data, graphs, charts (collectively, the "Information") is the property of MSCI Inc. or its subsidiaries (collectively, "MSCI"), or MSCI's licensors, direct or indirect suppliers or any third party involved in making or compiling any Information (collectively, with MSCI, the "Information Providers") and is provided for informational purposes only. The Information may not be modified, reverse-engineered, reproduced or disseminated in whole or in part without prior written permission from MSCI.

The Information may not be used to create derivative works or to verify or correct other data or information. For example (but without limitation), the Information may not be used to create indexes, databases, risk models, analytics, software, or in connection with the issuing, offering, sponsoring, managing or marketing of any securities, portfolios, financial products or other investment vehicles utilizing or based on, linked to, tracking or otherwise derived from the Information or any other MSCI data, information, products or services.

The user of the Information assumes the entire risk of any use it may make or permit to be made of the Information. NONE OF THE INFORMATION PROVIDERS MAKES ANY EXPRESS OR IMPLIED WARRANTIES OR REPRESENTATIONS WITH RESPECT TO THE INFORMATION (OR THE RESULTS TO BE OBTAINED BY THE USE THEREOF), AND TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, EACH INFORMATION PROVIDER EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES (INCLUDING, WITHOUT LIMITATION, ANY IMPLIED WARRANTIES OF ORIGINALITY, ACCURACY, TIMELINESS, NON-INFRINGEMENT, COMPLETENESS, MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE) WITH RESPECT TO ANY OF THE INFORMATION.

Without limiting any of the foregoing and to the maximum extent permitted by applicable law, in no event shall any Information Provider have any liability regarding any of the Information for any direct, indirect, special, punitive, consequential (including lost profits) or any other damages even if notified of the possibility of such damages. The foregoing shall not exclude or limit any liability that may not by applicable law be excluded or limited, including without limitation (as applicable), any liability for death or personal injury to the extent that such injury results from the negligence or willful default of itself, its servants, agents or sub-contractors.

Information containing any historical information, data or analysis should not be taken as an indication or guarantee of any future performance, analysis, forecast or prediction. Past performance does not guarantee future results.

The Information should not be relied on and is not a substitute for the skill, judgment and experience of the user, its management, employees, advisors and/or clients when making investment and other business decisions. All Information is impersonal and not tailored to the needs of any person, entity or group of persons.

None of the Information constitutes an offer to sell (or a solicitation of an offer to buy), any security, financial product or other investment vehicle or any trading strategy.

It is not possible to invest directly in an index. Exposure to an asset class or trading strategy or other category represented by an index is only available through third party investable instruments (if any) based on that index. MSCI does not issue, sponsor, endorse, market, offer, review or otherwise express any opinion regarding any fund, ETF, derivative or other security, investment, financial product or trading strategy that is based on, linked to or seeks to provide an investment return related to the performance of any MSCI index (collectively, "Index Linked Investments"). MSCI makes no assurance that any Index Linked Investments will accurately track index performance or provide positive investment returns. MSCI Inc. is not an investment adviser or fiduciary and MSCI makes no representation regarding the advisability of investing in any Index Linked Investments.

Index returns do not represent the results of actual trading of investible assets/securities. MSCI maintains and calculates indexes, but does not manage actual assets. Index returns do not reflect payment of any sales charges or fees an investor may pay to purchase the securities underlying the index or Index Linked Investments. The imposition of these fees and charges would cause the performance of an Index Linked Investment to be different than the MSCI index performance.

The Information may contain back tested data. Back-tested performance is not actual performance, but is hypothetical. There are frequently material differences between back tested performance results and actual results subsequently achieved by any investment strategy.

Constituents of MSCI equity indexes are listed companies, which are included in or excluded from the indexes according to the application of the relevant index methodologies. Accordingly, constituents in MSCI equity indexes may include MSCI Inc., clients of MSCI or suppliers to MSCI. Inclusion of a security within an MSCI index is not a recommendation by MSCI to buy, sell, or hold such security, nor is it considered to be investment advice.

Data and information produced by various affiliates of MSCI Inc., including MSCI ESG Research LLC and Barra LLC, may be used in calculating certain MSCI indexes. More information can be found in the relevant index methodologies on www.msci.com.

MSCI receives compensation in connection with licensing its indexes to third parties. MSCI Inc.'s revenue includes fees based on assets in Index Linked Investments. Information can be found in MSCI Inc.'s company filings on the Investor Relations section of www.msci.com.

MSCI ESG Research LLC is a Registered Investment Adviser under the Investment Advisers Act of 1940 and a subsidiary of MSCI Inc. Except with respect to any applicable products or services from MSCI ESG Research, neither MSCI nor any of its products or services recommends, endorses, approves or otherwise expresses any opinion regarding any issuer, securities, financial products or instruments or trading strategies and MSCI's products or services are not intended to constitute investment advice or a recommendation to make (or refrain from making) any kind of investment decision and may not be relied on as such. Issuers mentioned or included in any MSCI ESG Research materials may include MSCI Inc., clients of MSCI or suppliers to MSCI, and may also purchase research or other products or services from MSCI ESG Research. MSCI ESG Research materials, including materials utilized in any MSCI ESG Indexes or other products, have not been submitted to, nor received approval from, the United States Securities and Exchange Commission or any other regulatory body.

Any use of or access to products, services or information of MSCI requires a license from MSCI. MSCI, Barra, RiskMetrics, IPD and other MSCI brands and product names are the trademarks, service marks, or registered trademarks of MSCI or its subsidiaries in the United States and other jurisdictions. The Global Industry Classification Standard (GICS) was developed by and is the exclusive property of MSCI and Standard & Poor's. "Global Industry Classification Standard (GICS)" is a service mark of MSCI and Standard & Poor's.

MIFID2/MIFIR notice: MSCI ESG Research LLC does not distribute or act as an intermediary for financial instruments or structured deposits, nor does it deal on its own account, provide execution services for others or manage client accounts. No MSCI ESG Research product or service supports, promotes or is intended to support or promote any such activity. MSCI ESG Research is an independent provider of ESG data, reports and ratings based on published methodologies and available to clients on a subscription basis. We do not provide custom or one-off ratings or recommendations of securities or other financial instruments upon request.
