General

MSCI uses a committee structure to provide overall oversight and governance for the design, calculation and maintenance of MSCI indexes¹ as follows:

- Oversight as required by the EU benchmark regulation and any similar post-Brexit UK regulation (collectively, the “BMR”) is provided by the BMR Oversight Committee (“OC”).
- A Risk and Regulatory Committee presides over operational and business risk and regulatory compliance matters.
- The Index Policy Committee (“IPC”) presides over major methodology developments and changes as well as equity market classification decisions, and is an escalation point for any index committee.
- An Index Committee presides over the development, review and interpretation of index methodologies and other matters described in the relevant terms of reference.

All the committees are staffed solely by MSCI group company employees with extensive relevant experience.

All committee members are expected to act with integrity as is required of all our employees according to our Code of Ethics and Business Conduct posted on www.msci.com, and are subject to MSCI’s compliance policies, including with respect to confidential information and relevant MSCI Information Walls.

All decisions taken by the committees are the responsibility of their members.

MSCI believes that its editorial and operational independence is critical to its objectivity, efficiency and avoiding conflicts of interest.

¹ For the purpose of this document, “indexes” refer to MSCI equity, blended, digital assets and ETF linked indexes.

The Equity Index Committee

Description

For MSCI's equity, blended, digital assets and ETF linked indexes, the index committee is known as the Equity Index Committee ("EIC").

The EIC presides over the development, review and interpretation of index methodologies. MSCI equity indexes, digital assets indexes, ETF linked indexes as well as blended indexes, which combine MSCI equity indexes with indexes representing other asset classes or indexes, fall under responsibility of the EIC.

These terms of reference are reviewed and approved by the OC annually.

Responsibility

- The key responsibilities of the EIC include, but are not limited to, the following:
- Review and approve new methodologies, including methodology books, methodology changes and market reclassifications.
- Review and approve the results of the regular index rebalancings for the Global Investable Market Indexes.
- Review and approve the results of regular index rebalancing of indexes governed by other methodologies, as escalated by index research. Provide the IPC with highlights of rebalancing results.
- Review and approve complex or exceptional corporate event treatment that cannot be addressed by current methodologies, escalated by the Corporate Events team.
- Review and approve all proposals for index terminations not directly as a result of a methodology. Some index terminations may be escalated to the IPC.
- Approve or propose consultations, review feedback, and decide if methodology changes are needed.
- Determine what changes are significant after considering relevant factors such as operational impact on market participants and estimated turnover and transaction costs associated with the changes.
- Review and approve the MSCI Index Policies document.
- Delegate signoffs and decisions to sub-committees and functional teams for index changes that strictly follow the methodologies.
- May elect to escalate issues to the IPC for changes that it deems major or in cases where there is no agreement / decision. All market classification decisions are escalated to the IPC.

Composition

- The EIC is composed of seven voting members with significant experience and seniority selected from MSCI's Index Research.
- The EIC may elect to add non-voting members selected from MSCI's Index Research and Data teams. Designated non-voting members may act as a substitute if no quorum is reached.
- Changes to voting members are proposed by the EIC and approved by the IPC.

Meetings

- The EIC is scheduled to meet once a week. In addition, the EIC meets on an ad-hoc basis if required.
- Regular meetings require the attendance of at least three members. Plenary meetings require the attendance of the IPC Chair and all members of the EIC. In case no quorum² can be reached, designated non-voting members may act as a substitute.
- Topics are requested by members or other parties. If there are no topics or no quorum, the meeting is cancelled.
- The agendas for all EIC meetings contain the date, time, expected attendees and topics. All topics presented at the EIC generally have supporting documents.
- Generally, the minutes of all EIC meetings contain the date, time, attendees, material conflicts of interests (if any), topics discussed, and decisions made. The secretary will record minutes of each meeting, which will be retained for at least five years.

In instances when an EIC decision is required prior to a regular meeting and scheduling an ad-hoc EIC meeting is not possible, such decision may be reached via email communication, provided at least three members of the EIC explicitly approve a proposal. New index methodologies not requiring detailed discussion may also be approved via email communication, based on circulated methodology documents and/or additional supporting materials. In case of exceptionally time critical, typically market driven topics, consent of two EIC members is sufficient. In case no quorum can be reached within 24 hours, designated non-voting members may act as a substitute. Topics for which non-voting members acted as a substitute are brought to attention of the EIC at the next scheduled meeting.

February 2018 updates:

- Responsibility

² Three voting EIC members are required to constitute quorum.

- clarification on the role of the Index Equity Committee (EIC) in index termination decisions
- Meetings
 - change in the EIC voting rules in the cases when quorum cannot be reached

August 2018 updates:

- Meetings
 - clarification on the definition of quorum

February 2019 updates:

- Responsibilities
 - clarification on the new methodology book approvals
- Meetings
 - clarification on the definition of quorum

June 2019 updates:

- Responsibilities
 - clarification on the key responsibilities of the EIC

November 2020 updates:

- Composition
 - clarification on the composition of the EIC

September 2021 updates:

- Composition
 - clarification on the composition of the EIC

November 2022 updates:

- Meetings
 - Expansion of the contents of minutes to include consideration of potential material conflicts of interests declared by EIC members

July 2023 updates:

- Composition
 - clarification on the composition of the EIC

November 2023 updates:

Description

- Addition of digital assets benchmark family in the purview of EIC

January 2024 updates:

Description

- Clarification on identifying information barriers as MSCI Information Walls

June 2024 updates:

Description

- Addition of ETF linked index benchmark family in the purview of EIC

About MSCI

MSCI is a leading provider of critical decision support tools and services for the global investment community. With over 50 years of expertise in research, data and technology, we power better investment decisions by enabling clients to understand and analyze key drivers of risk and return and confidently build more effective portfolios. We create industry-leading research-enhanced solutions that clients use to gain insight into and improve transparency across the investment process.

To learn more, please visit www.msci.com.

The process for submitting a formal index complaint can be found on the index regulation page of MSCI's website at: <https://www.msci.com/index-regulation>.

Notice and disclaimer

This document is research for informational purposes only and is intended for institutional professionals with the analytical resources and tools necessary to interpret any performance information. Nothing herein is intended to promote or recommend any product, tool or service.

This document and all of the information contained in it, including without limitation all text, data, graphs, charts (collectively, the "Information") is the property of MSCI Inc. or its subsidiaries (collectively, "MSCI"), or MSCI's licensors, direct or indirect suppliers or any third party involved in making or compiling any Information (collectively, with MSCI, the "Information Providers") and is provided for informational purposes only. The Information may not be modified, reverse-engineered, reproduced or disseminated in whole or in part without prior written permission from MSCI. All rights in the Information are reserved by MSCI and/or its Information Providers.

The Information may not be used to create derivative works or to verify or correct other data or information. For example (but without limitation), the Information may not be used to create indexes, databases, risk models, analytics, software, or in connection with the issuing, offering, sponsoring, managing or marketing of any securities, portfolios, financial products or other investment vehicles utilizing or based on, linked to, tracking or otherwise derived from the Information or any other MSCI data, information, products or services.

The user of the Information assumes the entire risk of any use it may make or permit to be made of the Information. NONE OF THE INFORMATION PROVIDERS MAKES ANY EXPRESS OR IMPLIED WARRANTIES OR REPRESENTATIONS WITH RESPECT TO THE INFORMATION (OR THE RESULTS TO BE OBTAINED BY THE USE THEREOF), AND TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, EACH INFORMATION PROVIDER EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES (INCLUDING, WITHOUT LIMITATION, ANY IMPLIED WARRANTIES OF ORIGINALITY, ACCURACY, TIMELINESS, NON-INFRINGEMENT, COMPLETENESS, MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE) WITH RESPECT TO ANY OF THE INFORMATION.

Without limiting any of the foregoing and to the maximum extent permitted by applicable law, in no event shall any Information Provider have any liability regarding any of the Information for any direct, indirect, special, punitive, consequential (including lost profits) or any other damages even if notified of the possibility of such damages. The foregoing shall not exclude or limit any liability that may not by applicable law be excluded or limited, including without limitation (as applicable), any liability for death or personal injury to the extent that such injury results from the negligence or willful default of itself, its servants, agents or sub-contractors.

Information containing any historical information, data or analysis should not be taken as an indication or guarantee of any future performance, analysis, forecast or prediction. Past performance does not guarantee future results.

The Information may include "Signals," defined as quantitative attributes or the product of methods or formulas that describe or are derived from calculations using historical data. Neither these Signals nor any description of historical data are intended to provide investment advice or a recommendation to make (or refrain from making) any investment decision or asset allocation and should not be relied upon as such. Signals are inherently backward-looking because of their use of historical data, and they are not intended to predict the future. The relevance, correlations and accuracy of Signals frequently will change materially.

The Information should not be relied on and is not a substitute for the skill, judgment and experience of the user, its management, employees, advisors and/or clients when making investment and other business decisions. All Information is impersonal and not tailored to the needs of any person, entity or group of persons.

None of the Information constitutes an offer to sell (or a solicitation of an offer to buy), any security, financial product or other investment vehicle or any trading strategy.

It is not possible to invest directly in an index. Exposure to an asset class or trading strategy or other category represented by an index is only available through third party investable instruments (if any) based on that index. MSCI does not issue, sponsor, endorse, market, offer, review or otherwise express any opinion regarding any fund, ETF, derivative or other security, investment, financial product or trading strategy that is based on, linked to or seeks to provide an investment return related to the performance of any MSCI index (collectively, "Index Linked Investments"). MSCI makes no assurance that any Index Linked Investments will accurately track index performance or provide positive investment returns. MSCI Inc. is not an investment adviser or fiduciary and MSCI makes no representation regarding the advisability of investing in any Index Linked Investments.

Index returns do not represent the results of actual trading of investable assets/securities. MSCI maintains and calculates indexes, but does not manage actual assets. The calculation of indexes and index returns may deviate from the stated methodology. Index returns do not reflect payment of any sales charges or fees an investor may pay to purchase the securities underlying the index or Index Linked Investments. The imposition of these fees and charges would cause the performance of an Index Linked Investment to be different than the MSCI index performance.

The Information may contain back tested data. Back-tested performance is not actual performance, but is hypothetical. There are frequently material differences between back tested performance results and actual results subsequently achieved by any investment strategy.

Constituents of MSCI equity indexes are listed companies, which are included in or excluded from the indexes according to the application of the relevant index methodologies. Accordingly, constituents in MSCI equity indexes may include MSCI Inc., clients of MSCI or suppliers to MSCI. Inclusion of a security within an MSCI index is not a recommendation by MSCI to buy, sell, or hold such security, nor is it considered to be investment advice.

Data and information produced by various affiliates of MSCI Inc., including MSCI ESG Research LLC and Barra LLC, may be used in calculating certain MSCI indexes. More information can be found in the relevant index methodologies on www.msci.com.

MSCI receives compensation in connection with licensing its indexes to third parties. MSCI Inc.'s revenue includes fees based on assets in Index Linked Investments. Information can be found in MSCI Inc.'s company filings on the Investor Relations section of msci.com.

MSCI ESG Research LLC is a Registered Investment Adviser under the Investment Advisers Act of 1940 and a subsidiary of MSCI Inc. Neither MSCI nor any of its products or services recommends, endorses, approves or otherwise expresses any opinion regarding any issuer, securities, financial products or instruments or trading strategies and MSCI's products or services are not a recommendation to make (or refrain from making) any kind of investment decision and may not be relied on as such, provided that applicable products or services from MSCI ESG Research may constitute investment advice. MSCI ESG Research materials, including materials utilized in any MSCI ESG Indexes or other products, have not been submitted to, nor received approval from, the United States Securities and Exchange Commission or any other regulatory body. MSCI ESG and climate ratings, research and data are produced by MSCI ESG Research LLC, a subsidiary of MSCI Inc. MSCI ESG Indexes, Analytics and Real Estate are products of MSCI Inc. that utilize information from MSCI ESG Research LLC. MSCI Indexes are administered by MSCI Limited (UK) and MSCI Deutschland GmbH.

Please note that the issuers mentioned in MSCI ESG Research materials sometimes have commercial relationships with MSCI ESG Research and/or MSCI Inc. (collectively, "MSCI") and that these relationships create potential conflicts of interest. In some cases, the issuers or their affiliates purchase research or other products or services from one or more MSCI affiliates. In other cases, MSCI ESG Research rates financial products such as mutual funds or ETFs that are managed by MSCI's clients or their affiliates, or are based on MSCI Inc. Indexes. In addition, constituents in MSCI Inc. equity indexes include companies that subscribe to MSCI products or services. In some cases, MSCI clients pay fees based in whole or part on the assets they manage. MSCI ESG Research has taken a number of steps to mitigate potential conflicts of interest and safeguard the integrity and independence of its research and ratings. More information about these conflict mitigation measures is available in our Form ADV, available at <https://adviserinfo.sec.gov/firm/summary/169222>.

Any use of or access to products, services or information of MSCI requires a license from MSCI. MSCI, Barra, RiskMetrics, IPD and other MSCI brands and product names are the trademarks, service marks, or registered trademarks of MSCI or its subsidiaries in the United States and other jurisdictions. The Global Industry Classification Standard (GICS) was developed by and is the exclusive property of MSCI and S&P Global Market Intelligence. "Global Industry Classification Standard (GICS)" is a service mark of MSCI and S&P Global Market Intelligence.

MIFID2/MIFIR notice: MSCI ESG Research LLC does not distribute or act as an intermediary for financial instruments or structured deposits, nor does it deal on its own account, provide execution services for others or manage client accounts. No MSCI ESG Research product or service supports, promotes or is intended to support or promote any such activity. MSCI ESG Research is an independent provider of ESG data. Privacy notice: For information about how MSCI collects and uses personal data, please refer to our Privacy Notice at <https://www.msci.com/privacy-pledge>.
