The MSCI EUR Investment Grade Corporate Bond Index was launched on Sep 17, 2020. Data prior to the launch date is back-tested data (i.e. calculations of how the index might have performed over that time period had the index existed). There are frequently material differences between back-tested performance and actual results. Past performance -- whether actual or back-tested -- is no indication or guarantee of future performance.

Index Framework

The MSCI Corporate Bond Index will include securities selected from the global credit universe. In general, the universe includes all bullet, callable, and puttable fixed rate coupon bonds. Issues with tax-advantages, index-linked and perpetual bonds are excluded. In terms of capital structure, only senior secured, senior unsecured and subordinated (both junior and senior) debt are included. Capital securities, such as preferred stock, are not eligible to be part of the index. Securities are selected in the MSCI Corporate Bond Index based on the criteria like credit rating, country of domicile, size and maturity. The composition of the MSCI Corporate Bond Index is reviewed monthly, with the Rebalancing Date being the first business date of the month.
