

MSCI ASEAN INDEXES

Southeast Asia, whose nations are members of the regional organization known as the Association of Southeast Asian Nations (ASEAN), has flourished over the past decade with abundant opportunities. It is quickly becoming a standalone investment opportunity set. MSCI is poised to help institutional investors as they incorporate this into their investment process. As a first step, we have rebranded our Southeast Asian index offering to the MSCI ASEAN Indexes.

WHY ARE WE REBRANDING?

The ASEAN designation was previously not utilized by MSCI for the flagship indexes relating to the region. The MSCI Southeast Asia Indexes referred specifically to the combined regional Developed and Emerging Markets opportunity set. Our new MSCI ASEAN Indexes cover Developed, Emerging, and Frontier Markets with clear designations for various combinations of these three components to meet client demands.

KEY ATTRIBUTES

- Complete coverage of the opportunity set
- No gaps and overlaps
- Replicable
- Clearly defined markets

BENEFITS FROM REBRANDING

The rebranding and launch of a complete suite of MSCI ASEAN Indexes, may allow institutional investors to treat ASEAN as a distinct opportunity set with a specialized investment approach.
