## **1 Introduction**

The MSCI ESG Leaders Indexes are free float-adjusted market capitalization-weighted indexes designed to represent the performance of companies that have high Environmental, Social and Governance (“ESG”) ratings relative to their sector peers, to ensure the inclusion of the best-in-class companies from an ESG perspective. The MSCI ESG Leaders Indexes aim to target sector weights that reflect the relative sector weights of the underlying MSCI Global Investable Market Indexes to limit the systematic risk introduced by the ESG selection process. Overall the MSCI ESG Leaders Indexes target coverage of 50% of the underlying MSCI parent index (“Parent Index”).

Currently MSCI constructs the MSCI ESG Leaders Indexes for the Standard size-segment in all Developed and Emerging Markets and the Small Cap size-segment in the USA.

## 2 MSCI ESG Research

The MSCI ESG Leaders Indexes use company ratings and research provided by MSCI ESG Research. In particular, these indexes use the following MSCI ESG Research products: MSCI ESG Ratings, MSCI ESG Controversies and MSCI Business Involvement Screening Research.

For details on MSCI ESG Research’s full suite of ESG products, please refer to: <https://www.msci.com/esg-integration>

### 2.1 MSCI ESG Ratings

MSCI ESG Ratings provides research, analysis and ratings of how well companies manage environmental, social and governance risks and opportunities.

MSCI ESG Ratings provides an overall company ESG rating - a seven-point scale from ‘AAA’ to ‘CCC’. In addition, the product provides scores and percentiles indicating how well a company manages each key issue relative to industry peers.

For more details on MSCI ESG Ratings, please refer to: <https://www.msci.com/esg-ratings>

### 2.2 MSCI ESG Controversies

MSCI ESG Controversies (formerly known as MSCI Impact Monitor) provides assessments of controversies concerning the negative environmental, social, and/or governance impact of company operations, products and services. The evaluation framework used in MSCI ESG Controversies is designed to be consistent with international norms represented by the UN Declaration of Human Rights, the ILO Declaration on Fundamental Principles and Rights at Work, and the UN Global Compact. MSCI ESG Controversies Score falls on a 0-10 scale, with “0” being the most severe controversy.

For more details on MSCI ESG Controversies Score, please refer to: <https://www.msci.com/documents/10199/acbe7c8a-a4e4-49de-9cf8-5e957245b86b>

### 2.3 MSCI ESG Business Involvement Screening Research

MSCI ESG Business Involvement Screening Research (BISR) aims to enable institutional investors to manage ESG standards and restrictions reliably and efficiently.

For more details on MSCI ESG Business Involvement Screening Research, please refer to [http://www.msci.com/resources/factsheets/MSCI\\_ESG\\_BISR.pdf](http://www.msci.com/resources/factsheets/MSCI_ESG_BISR.pdf)

### **3 Constructing the MSCI ESG Leaders Indexes**

#### **3.1 Underlying Universe**

The selection universe for the MSCI ESG Leaders Indexes is defined by the constituents of the MSCI Global Investable Market Indexes (“GIMI”).

#### **3.2 Eligibility Criteria**

The MSCI ESG Leaders Indexes use company ratings and research provided by MSCI ESG Research to determine eligibility for index inclusion.

##### **3.2.1 ESG Ratings Eligibility**

The MSCI ESG Leaders Indexes use MSCI ESG Ratings to identify companies that have demonstrated an ability to manage their ESG risks and opportunities. Companies are required to have an MSCI ESG Rating of ‘BB’ or above to be eligible for inclusion in the MSCI ESG Leaders Indexes.

##### **3.2.2 ESG Controversies Score Eligibility**

The MSCI ESG Leaders Indexes use MSCI ESG Controversies Scores to identify companies that are involved in very serious controversies involving the environmental, social, or governance impact of their operations and/or products and services. Companies are required to have an MSCI ESG Controversies Score of 3 or above to be eligible for inclusion in the MSCI ESG Leaders Indexes.

##### **3.2.3 Controversial Business Involvement Criteria**

The MSCI ESG Leaders Indexes use MSCI ESG Business Involvement Screening Research to identify companies that are involved in the following business activities. Companies that meet the business involvement criteria are excluded from the MSCI ESG Leaders Indexes. Please refer to Appendix 2 for details on these criteria.

- Alcohol
- Gambling
- Tobacco
- Nuclear Power
- Conventional Weapons
- Nuclear Weapons
- Controversial Weapons

- Civilian Firearms

### 3.3 Index Construction

Currently MSCI constructs MSCI ESG Leaders Indexes for:

- The Standard size-segment in all Developed and Emerging Markets; and
- The Small Cap size-segment in the USA.

The MSCI ESG Leaders Indexes for the Standard size-segment are constructed at a regional level, with the exception of North America which is built separately for Canada and the USA. Each regional ESG Leaders index targets 50% of the free float-adjusted market capitalization within each Global Industry Classification Standard (GICS®) sector of the underlying Parent Index.

The following regional ESG Leaders Indexes are aggregated to construct the MSCI World ESG Leaders Index.

MSCI Regional ESG Leaders Index	Region	Parent Index
MSCI Pacific ESG Leaders Index	Developed Asia Pacific	MSCI Pacific Index
MSCI Europe & Middle East ESG Leaders Index	Developed Europe & Middle East	MSCI Europe & Middle East Index
MSCI Canada ESG Leaders Index	Canada	MSCI Canada Index
MSCI USA ESG Leaders Index	USA	MSCI USA Index

The following regional ESG Leaders Indexes are aggregated to construct the MSCI EM ESG Leaders Index.

MSCI Regional ESG Leaders Index	Region	Parent Index
MSCI Emerging Markets Asia ESG Leaders Index	Emerging Asia	MSCI Emerging Markets Asia Index
MSCI Emerging Markets Europe, Middle East & Africa ESG Leaders Index	Emerging Europe, Middle East & Africa	MSCI Emerging Markets Europe, Middle East & Africa Index
MSCI Emerging Markets Latin America ESG Leaders Index	Emerging Latin America	MSCI Emerging Markets Latin America Index

The MSCI USA Small Cap ESG Leaders Index is constructed by targeting 50% of the free float-adjusted market capitalization within each sector of the MSCI USA Small Cap Index. The MSCI USA IMI ESG Leaders Index is created by aggregating the MSCI USA ESG Leaders Index and the MSCI USA Small Cap ESG Leaders Index.

The MSCI World ESG Leaders Index and the MSCI EM ESG Leaders Index are aggregated to construct the MSCI ACWI ESG Leaders Index.

The Large Cap and Mid Cap size-segments of the MSCI ESG Leaders Indexes are derived from the Standard size-segment.

The MSCI ESG Leaders Indexes for other regions and countries are determined by including securities from the particular region/country from the MSCI ACWI ESG Leaders Index and weighting them according to their free float-adjusted market capitalization. For example, the MSCI EAFE ESG Leaders Index and the MSCI China ESG Leaders Index are constructed by including those securities from the MSCI ACWI ESG Leaders Index which are a part of the MSCI EAFE Index and the MSCI China Index respectively and weighting them in the proportion of their free float-adjusted market capitalization.

## 4 Maintaining the MSCI ESG Leaders Indexes

### 4.1 Annual Index Review

The MSCI ESG Leaders Indexes are reviewed on an annual basis in May to coincide with the May Semi-Annual Index Review of the Parent Index, and the changes are implemented at the end of May. In general, the pro forma indexes are announced nine business days before the effective date.

In general, MSCI uses MSCI ESG Research data (including MSCI ESG Ratings, MSCI ESG Controversies Scores and MSCI Business Involvement Screening Research) as of the end of the month preceding the Index Reviews for the rebalancing of the MSCI ESG Leaders Indexes. For some securities, such data may not be published by MSCI ESG Research by the end of the month preceding the Index Review. For such securities, MSCI will use ESG data published after the end of month, when available, for the rebalancing of the MSCI ESG Leaders Indexes.

At each Annual Index Review, the eligible universe is updated, and the composition of the index is reassessed in order to target 50% free float-adjusted cumulative market capitalization of each sector of the Parent Index.

#### 4.1.1 Updating the Eligible Universe

The eligible universe is updated during each Annual Index Review.

Companies that are currently not constituents of the MSCI ESG Leaders Indexes are evaluated using the same eligibility criteria described in Section 3.2.

Existing constituents of the MSCI ESG Leaders Indexes are maintained in the eligible universe if they meet all the following conditions:

- MSCI ESG Rating of 'BB' or above
- MSCI ESG Controversies Score of 1 or above
- Not screened by the business involvement criteria described in Section 3.2.3

#### 4.1.2 Ranking of Eligible Securities

For each sector, eligible securities of the regional Parent Index as described in Section 3.2 are ranked based on the following criteria:

- ESG Rating

- ESG Trend<sup>1</sup> (positive ESG Trend preferred to neutral ESG Trend and neutral ESG Trend preferred to negative ESG Trend)
- Current index membership (existing constituents above non-constituents)
- Industry-adjusted ESG scores
- Decreasing free float-adjusted market capitalization

### 4.1.3 Selection of Eligible Securities

For each sector, eligible securities of the regional Parent Index are then selected from the ranked universe in the following order until the target 50% coverage by cumulative free float-adjusted market capitalization is reached:

- Securities in the top 35% cumulative free float-adjusted market capitalization coverage of the ranked universe
- 'AAA' and 'AA' rated securities in the top 50% cumulative free float-adjusted market capitalization coverage of the ranked universe
- Current index constituents in the top 65% cumulative free float-adjusted market capitalization coverage of the ranked universe
- Remaining eligible securities in the ranked universe

Please see Appendix 1 for additional details on the ranking and selection rules.

## 4.2 Quarterly Index Reviews

The MSCI ESG Leaders Indexes are also reviewed on a quarterly basis to coincide with the regular Index Reviews of the Parent Indexes. The changes are implemented at the end of February, August and November. The pro forma indexes are in general announced nine business days before the effective date.

For the Quarterly Index Reviews, MSCI ESG Ratings, MSCI ESG Controversies Score assessments and MSCI BISR data are taken as of the end of the month preceding the Index Reviews, i.e., January, July and October. For some securities, this data may not be published by MSCI ESG Research by the end of the month preceding the Index Review. For such securities, MSCI will use ESG data published after the end of month, when available, for the rebalancing of the MSCI ESG Leaders Indexes.

At the Quarterly Index Reviews, existing constituents are deleted from the MSCI ESG Leaders Indexes if they do not meet the eligibility criteria described in Section 4.1.1. Existing constituents that meet the eligibility criteria are retained in the index.

---

<sup>1</sup> ESG Trend is defined as the latest change in ESG Rating over the previous 12 months. A security without any change in ESG Rating over the previous 12 months will have a neutral ESG Trend.

Additions, from the eligible securities as per Section 3.2, are made only to those sectors where the current market capitalization coverage is less than 45%, until the 50% target is reached.

Market price movements may cause small deviations in the sector coverage between two Index Reviews. Therefore, in order to minimize turnover, a buffer of 10% is used on the target coverage of 50% to define under-representation.

### **4.3 Ongoing Event-Related Maintenance**

The MSCI Corporate Events Methodology is applied for the maintenance of the MSCI ESG Leaders Indexes between Index Reviews.

#### **IPOs and other Early Inclusions**

IPOs and other newly listed securities that are added to the Parent Index as well as securities added to the Parent Index following a migration from a different size-segment, are considered for inclusion to the MSCI ESG Leaders Indexes at the time of their inclusion in the Parent Index. These securities are added to the MSCI ESG Leaders Indexes only if they meet the eligibility criteria described in Section 3.2 and the market capitalization coverage of the sector to which the security belongs is less than 45%.

#### **Additions and Deletions due to Corporate Events**

Deletions from the Parent Index following a corporate event will be simultaneously deleted from the MSCI ESG Leaders Indexes. Additions to the Parent Index following corporate events related to existing constituents (such as spin-offs) will not be automatically added to the MSCI ESG Leaders Indexes. These Parent Index additions will be considered for addition at the next index review according to the rules outlined in Sections 4.1 or 4.2.

There are no deletions from the MSCI ESG Leaders Indexes between index reviews on account of a security becoming ineligible because of an MSCI ESG Rating downgrade and/or decrease in MSCI ESG Controversies Score and/or change in business involvement.

## Appendix 1: Guidelines on Achieving the Target Sector Coverage of 50%

The MSCI ESG Leaders Indexes target 50% coverage of the free float-adjusted market capitalization of each Global Industry Classification Standard (GICS®) sector of the regional Parent Index. The underlying principle in the construction of the indexes is to achieve cumulative sector coverage closest to 50%, while aiming to maintain index stability.

The following guidelines are used in achieving the target cumulative sector coverage of 50%:

- For each sector, the eligible companies of the regional Parent Index are first ranked based on the company level ESG Rating.
- If two companies have the same ESG Rating, the company with better ESG Trend is given priority (positive ESG Trend preferred to neutral ESG Trend and neutral ESG Trend preferred to negative ESG Trend).
- In case of two companies with the same ESG Rating and the same ESG Trend, the existing ESG Leaders index constituent is given priority to maintain index stability. Between two existing constituents with the same ESG Rating and the same ESG Trend, the company with the higher industry-adjusted ESG Score is given priority. For two existing ESG Leaders index constituents with the same industry-adjusted ESG score, the security with the largest free float-adjusted market capitalization is given priority.
- The cumulative sector coverage at each rank is calculated.
- In each sector, companies are selected as per the rules mentioned in Section 4.1.2 until the cumulative sector coverage crosses 50% or there are no eligible securities left to be selected.
- MSCI defines the company that increases the cumulative sector coverage above 50% as the “marginal company”.
  - If the marginal company is a current ESG Leaders index constituent, then it is always selected.
  - If the marginal company is not a current ESG Leaders index constituent, then it is selected only if the cumulative sector coverage with the marginal company is closer to 50% compared to the cumulative sector coverage without the marginal company.
- The minimum cumulative sector coverage is set to 45%.
  - The marginal company is always selected if this is required to achieve cumulative sector coverage of 45%.

- Securities which are ineligible as per Section 4.1.1 will not be selected even if the cumulative sector coverage after selection of all eligible securities is below 50%.

## Appendix 2: Controversial Business Screening Criteria

Companies that are involved in certain controversial business activities are excluded from the MSCI ESG Leaders Indexes:

- **Alcohol**
  - All companies classified as a “Producer” that earn either 50% or more revenue or more than \$1 billion in revenue from alcohol-related products
- **Gambling**
  - All companies classified as involved in “Operations” and “Support” that earn 50% or more in revenue, or more than \$1 billion in revenue, from gambling-related products
- **Tobacco**
  - All companies classified as a “Producer” that earn either 50% or more revenue or more than \$1 billion in revenue from tobacco-related products
- **Nuclear Power**
  - All companies with 6000 MW or more of installed capacity attributed to nuclear sources or with 50% or more of installed capacity attributed to nuclear sources
  - All companies involved in nuclear fuel enrichment for nuclear power generation
  - All companies involved in uranium mining for nuclear power generation
  - All companies involved in nuclear reactor design or construction for nuclear power generation
- **Conventional Weapons**
  - All companies that manufacture conventional weapons components or conventional weapons and weapons systems and earn 50% or more in revenue, or \$3 billion or more in revenue from these activities
- **Nuclear Weapons**
  - All companies involved in manufacturing of nuclear weapon components or nuclear weapon systems
- **Controversial Weapons**
  - All companies with any tie to Controversial Weapons (cluster munitions, landmines, depleted uranium weapons, biological/chemical weapons, blinding lasers, non-detectable fragments and incendiary weapons), as

defined by the methodology of the MSCI Ex-Controversial Weapons Indexes available at <https://www.msci.com/index-methodology>

- **Civilian Firearms**

- All companies classified as a “Producer” that earn either 50% or more revenue or more than \$100 million in revenue from civilian firearms

## Appendix 3: Methodology Transition

### June 2013

Prior to the May 2013 Index Review, the MSCI ESG Leaders Indexes were constructed using Global Socrates ESG Ratings. Effective May 2013 Index Review, MSCI ESG Leaders Indexes transitioned to MSCI ESG IVA Ratings. Any company that had an ESG Rating of 'CCC' or lower was not eligible for inclusion in the MSCI ESG Leaders Indexes. The MSCI ESG Leaders Indexes were constructed by targeting 50% of the free float-adjusted market capitalization of each Global Industry Classification Standard (GICS) sector of the underlying MSCI regional ESG Leaders Index.

### June 2016

Effective May 2016 Index Review, the MSCI ESG Leaders Indexes reflected enhancements to the MSCI ESG Controversies (formerly known as MSCI Impact Monitor). The details of the changes are as given below.

The changes to MSCI ESG Controversies included adjusting the scoring model to align the scores with individual controversy case levels, including the introduction of an Orange flag, and the removal of specific controversial business involvement (CBI) criteria from the model to refocus the ESG Controversies scores on event-driven controversies.

MSCI implemented the following changes to the MSCI ESG Leaders Indexes methodology effective June 1, 2016 to maintain consistency with the existing index construction objectives:

1. As per the old MSCI ESG Impact Monitor methodology, securities which had an Impact Monitor score of 0 and 1 had a Red controversy flag. Under the new methodology, only securities with an ESG controversies score of 0 have a Red controversy flag. For indexes where constituents were ineligible to be included in the index if their Impact Monitor score was 0 or 1 (current Red controversy flag), the exclusion criteria was changed to ESG Controversies score = 0 in order to continue to only exclude securities with Red controversy flag in the MSCI ESG Leaders Indexes.
2. MSCI Impact Monitor earlier incorporated exclusion rules based on controversial business involvement criteria related to alcohol, tobacco, gambling, nuclear power, conventional weapons and controversial weapons. Therefore, additional exclusion rules based on the controversial business involvement criteria related to alcohol, tobacco, gambling, nuclear power, conventional weapons and controversial weapons that were incorporated in the old MSCI Impact Monitor scores were introduced as part of the

methodology of the MSCI ESG Leaders Indexes. The details of the exclusion rules are mentioned in Appendix 2.

**June 2018**

Prior to the May 2018 Annual Index Review, existing constituents of the MSCI ESG Leaders Indexes could be maintained in the eligible universe if their MSCI ESG Rating was 'B' or above. Effective from the May 2018 Annual Index Review, existing constituents are required to have MSCI ESG Rating of 'BB' or above in order to be maintained in the eligible universe.

## Appendix 4: MSCI Country and Region ESG Leaders Indexes

The MSCI Country and Region ESG Leaders Indexes are constructed with an aim to represent the performance of companies that have high Environmental, Social and Governance (ESG) performance.

The MSCI Country ESG Leaders Indexes aim to target sector weights that reflect the relative sector weights of the underlying country Index to limit the systematic risk and country specific risk introduced by the ESG selection process. Currently the MSCI Country ESG Leaders Indexes can be constructed for the Standard size-segment in any Developed and Emerging Markets.

The MSCI Region ESG Leaders Indexes can be constructed for regions different than those used in the construction of the MSCI ESG Leaders Indexes and aim to target sector weights that reflect the relative sector weights of the underlying regional Index. Currently the MSCI Region ESG Leaders Indexes can be constructed for the Standard size-segment in any regions in Developed and Emerging Markets.

The MSCI Country and Region ESG Leaders Indexes are constructed by applying the index construction rules detailed in Section 3 at the level of the respective country or region covered by the index, instead of the specific regional level used in the construction of MSCI ESG Leaders Indexes.

The MSCI Country and Region ESG Leaders Indexes target 50% of the free float-adjusted market capitalization of each GICS® sector of the Parent Country or Region Index. The MSCI Country and Region ESG Leaders Indexes follows the same index review cycle, maintenance rules and corporate events treatment as the MSCI ESG Leaders Indexes as described in Section 4.

## Appendix 5: MSCI Extended ESG Leaders Indexes

The MSCI Extended ESG Leaders Indexes methodology is a variant of the MSCI ESG Leaders Indexes methodology which starts with an MSCI ESG Leaders Index and then excludes all securities of companies involved in the following business activities:

Extended ESG Leaders Index	ESG Leaders Index	Additional Business Exclusions
MSCI USA Extended ESG Leaders Index	MSCI USA ESG Leaders Index	<ul style="list-style-type: none"> <li>• Producers of or ties with Civilian Firearms–               <ul style="list-style-type: none"> <li>– All companies classified as “Producer” of firearms and small arms ammunitions for civilian markets. It does not include companies that cater to the military, government, and law enforcement markets</li> <li>– All companies deriving 5% or more revenue from the distribution (wholesale or retail) of firearms or small arms ammunition intended for civilian use.</li> <li>– All companies that earn more than USD 20 million in revenue, from civilian firearms-related products.</li> </ul> </li> </ul>
MSCI EM Extended ESG Leaders Index	MSCI EM ESG Leaders Index	

The MSCI EM Extended ESG Leaders 5% Issuer Capped Index is created by capping the maximum weight of any issuer in the MSCI EM Extended ESG Leaders Index at 5% in accordance with the MSCI Capped Indexes methodology<sup>2</sup>. The excess weight of the capped issuers is distributed among the remaining constituents in proportion of their existing weights in the index.

<sup>2</sup> Please refer to the MSCI Capped Indexes methodology at [www.msci.com/index-methodology](http://www.msci.com/index-methodology)

**THE FOLLOWING SECTIONS HAVE BEEN MODIFIED SINCE JUNE 2013:**

Section 2: MSCI ESG Research and Section 3: Constructing the MSCI ESG Leaders Indexes

- Clarification of MSCI ESG Leaders Index construction rules

Section 4: Maintaining the MSCI ESG Leaders Indexes

- Enhancement of treatment of corporate events

**THE FOLLOWING SECTIONS HAVE BEEN MODIFIED SINCE NOVEMBER 2014:**

Section 2: MSCI ESG Research

- Updated to include the impact of the change in the MSCI ESG Controversies Scores methodology on MSCI ESG Leaders Indexes methodology

Section 3: Constructing the MSCI ESG Leaders Indexes

- Changed Section 3 to update the eligibility criteria for inclusion in MSCI ESG Leaders Indexes and to include clarification on the construction of regional and country level ESG Leaders Indexes

Section 4: Maintaining the MSCI ESG Leaders Indexes

- Updated to clarify the treatment of ESG Rating downgrade or decrease in ESG Controversies scores between index reviews

Appendix 1: Guidelines on achieving the target sector coverage of 50%

- Added a clarification to specify that non-eligible securities would not be included to increase the sector coverage to 50%

Appendix 2: Controversial Business Screening Criteria

- Added details of controversial business screening criteria applicable effective June 2016

Appendix 3: Methodology Transition

- Added details which highlight the changes to the MSCI ESG Leaders Indexes effective June 2016

**THE FOLLOWING SECTIONS HAVE BEEN MODIFIED SINCE MAY 2016:**

Section 3.2.3: Controversial Business Involvement Criteria

- Updated to include civilian firearms to the list of controversial businesses

Appendix 2: Controversial Business Screening Criteria

- Updated the controversial business screening criteria pertaining to Tobacco
- Addition of the controversial business screening criteria pertaining to Civilian Firearms

**THE FOLLOWING SECTIONS HAVE BEEN MODIFIED SINCE JUNE 2016:**

Appendix 4: MSCI Country ESG Leaders Index

- Added details for construction of Country ESG Leaders Indexes

**THE FOLLOWING SECTIONS HAVE BEEN MODIFIED SINCE NOVEMBER 2016:**

Section 4: Maintaining the MSCI ESG Leaders Indexes

- Clarification on use of ESG data for securities whose data would be available after the end of the month preceding Index Review

**THE FOLLOWING SECTIONS HAVE BEEN MODIFIED SINCE MAY 2017:**

- Methodology book updated to reflect the change in name of MSCI Global Sustainability Index to MSCI ESG Leaders Indexes

**THE FOLLOWING SECTIONS HAVE BEEN MODIFIED SINCE JUNE 2017:**

Appendix 4: MSCI Country and Region ESG Leaders Indexes

- Updated to include MSCI Region ESG Leaders Indexes

**THE FOLLOWING SECTIONS HAVE BEEN MODIFIED SINCE FEBRUARY 2018:**

Section 3: Constructing the MSCI ESG Leaders Indexes

- Removed the references to minimum ESG Ratings and ESG Controversies Score for existing constituents

Section 4: Maintaining the MSCI ESG Leaders Indexes

- Added references to minimum ESG Ratings and ESG Controversies Score for existing constituents
- Updated the ranking rules to reflect the addition of the ESG Trend criterion

Appendix 1: Guidelines on Achieving the Target Sector Coverage of 50%

- Added clarifications

Appendix 2: Controversial Business Screening Criteria

- Updated the controversial business screening criteria pertaining to Controversial Weapons

**THE FOLLOWING SECTIONS HAVE BEEN MODIFIED SINCE MAY 2018:**

Appendix 2: Controversial Business Screening Criteria

- Updated the guidelines to reflect the addition of the ESG Trend criterion

**THE FOLLOWING SECTIONS HAVE BEEN MODIFIED SINCE FEB 2019:**

Appendix 5: MSCI Extended ESG Leaders Indexes

- Added details for the methodology of the MSCI Extended ESG Leaders Indexes

**THE FOLLOWING SECTION HAS BEEN MODIFIED SINCE MARCH 2019**

Appendix 5: MSCI Extended ESG Leaders Indexes

- Added details for the methodology of the MSCI EM Extended ESG Leaders 5% Issuer Capped Indexes

## Notice and disclaimer

This document and all of the information contained in it, including without limitation all text, data, graphs, charts (collectively, the "Information") is the property of MSCI Inc. or its subsidiaries (collectively, "MSCI"), or MSCI's licensors, direct or indirect suppliers or any third party involved in making or compiling any Information (collectively, with MSCI, the "Information Providers") and is provided for informational purposes only. The Information may not be modified, reverse-engineered, reproduced or disseminated in whole or in part without prior written permission from MSCI.

The Information may not be used to create derivative works or to verify or correct other data or information. For example (but without limitation), the Information may not be used to create indexes, databases, risk models, analytics, software, or in connection with the issuing, offering, sponsoring, managing or marketing of any securities, portfolios, financial products or other investment vehicles utilizing or based on, linked to, tracking or otherwise derived from the Information or any other MSCI data, information, products or services.

The user of the Information assumes the entire risk of any use it may make or permit to be made of the Information. NONE OF THE INFORMATION PROVIDERS MAKES ANY EXPRESS OR IMPLIED WARRANTIES OR REPRESENTATIONS WITH RESPECT TO THE INFORMATION (OR THE RESULTS TO BE OBTAINED BY THE USE THEREOF), AND TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, EACH INFORMATION PROVIDER EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES (INCLUDING, WITHOUT LIMITATION, ANY IMPLIED WARRANTIES OF ORIGINALITY, ACCURACY, TIMELINESS, NON-INFRINGEMENT, COMPLETENESS, MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE) WITH RESPECT TO ANY OF THE INFORMATION.

Without limiting any of the foregoing and to the maximum extent permitted by applicable law, in no event shall any Information Provider have any liability regarding any of the Information for any direct, indirect, special, punitive, consequential (including lost profits) or any other damages even if notified of the possibility of such damages. The foregoing shall not exclude or limit any liability that may not by applicable law be excluded or limited, including without limitation (as applicable), any liability for death or personal injury to the extent that such injury results from the negligence or willful default of itself, its servants, agents or sub-contractors.

Information containing any historical information, data or analysis should not be taken as an indication or guarantee of any future performance, analysis, forecast or prediction. Past performance does not guarantee future results.

The Information should not be relied on and is not a substitute for the skill, judgment and experience of the user, its management, employees, advisors and/or clients when making investment and other business decisions. All Information is impersonal and not tailored to the needs of any person, entity or group of persons.

None of the Information constitutes an offer to sell (or a solicitation of an offer to buy), any security, financial product or other investment vehicle or any trading strategy.

It is not possible to invest directly in an index. Exposure to an asset class or trading strategy or other category represented by an index is only available through third party investable instruments (if any) based on that index. MSCI does not issue, sponsor, endorse, market, offer, review or otherwise express any opinion regarding any fund, ETF, derivative or other security, investment, financial product or trading strategy that is based on, linked to or seeks to provide an investment return related to the performance of any MSCI index (collectively, "Index Linked Investments"). MSCI makes no assurance that any Index Linked Investments will accurately track index performance or provide positive investment returns. MSCI Inc. is not an investment adviser or fiduciary and MSCI makes no representation regarding the advisability of investing in any Index Linked Investments.

Index returns do not represent the results of actual trading of investible assets/securities. MSCI maintains and calculates indexes, but does not manage actual assets. Index returns do not reflect payment of any sales charges or fees an investor may pay to purchase the securities underlying the index or Index Linked Investments. The imposition of these fees and charges would cause the performance of an Index Linked Investment to be different than the MSCI index performance.

The Information may contain back tested data. Back-tested performance is not actual performance, but is hypothetical. There are frequently material differences between back tested performance results and actual results subsequently achieved by any investment strategy.

Constituents of MSCI equity indexes are listed companies, which are included in or excluded from the indexes according to the application of the relevant index methodologies. Accordingly, constituents in MSCI equity indexes may include MSCI Inc., clients of MSCI or suppliers to MSCI. Inclusion of a security within an MSCI index is not a recommendation by MSCI to buy, sell, or hold such security, nor is it considered to be investment advice.

Data and information produced by various affiliates of MSCI Inc., including MSCI ESG Research LLC and Barra LLC, may be used in calculating certain MSCI indexes. More information can be found in the relevant index methodologies on [www.msci.com](http://www.msci.com).

MSCI receives compensation in connection with licensing its indexes to third parties. MSCI Inc.'s revenue includes fees based on assets in Index Linked Investments. Information can be found in MSCI Inc.'s company filings on the Investor Relations section of [www.msci.com](http://www.msci.com).

MSCI ESG Research LLC is a Registered Investment Adviser under the Investment Advisers Act of 1940 and a subsidiary of MSCI Inc. Except with respect to any applicable products or services from MSCI ESG Research, neither MSCI nor any of its products or services recommends, endorses, approves or otherwise expresses any opinion regarding any issuer, securities, financial products or instruments or trading strategies and MSCI's products or services are not intended to constitute investment advice or a recommendation to make (or refrain from making) any kind of investment decision and may not be relied on as such. Issuers mentioned or included in any MSCI ESG Research materials may include MSCI Inc., clients of MSCI or suppliers to MSCI, and may also purchase research or other products or services from MSCI ESG Research. MSCI ESG Research materials, including materials utilized in any MSCI ESG Indexes or other products, have not been submitted to, nor received approval from, the United States Securities and Exchange Commission or any other regulatory body.

Any use of or access to products, services or information of MSCI requires a license from MSCI. MSCI, Barra, RiskMetrics, IPD and other MSCI brands and product names are the trademarks, service marks, or registered trademarks of MSCI or its subsidiaries in the United States and other jurisdictions. The Global Industry Classification Standard (GICS) was developed by and is the exclusive property of MSCI and Standard & Poor's. "Global Industry Classification Standard (GICS)" is a service mark of MSCI and Standard & Poor's.

MIFID2/MIFIR notice: MSCI ESG Research LLC does not distribute or act as an intermediary for financial instruments or structured deposits, nor does it deal on its own account, provide execution services for others or manage client accounts. No MSCI ESG Research product or service supports, promotes or is intended to support or promote any such activity. MSCI ESG Research is an independent provider of ESG data, reports and ratings based on published methodologies and available to clients on a subscription basis. We do not provide custom or one-off ratings or recommendations of securities or other financial instruments upon request.

Privacy notice: For information about how MSCI ESG Research LLC collects and uses personal data concerning officers and directors, please refer to our Privacy Notice at <https://www.msci.com/privacy-pledge>.
