The MSCI Eurozone Government Bond Index was launched on April 27, 2022. Data prior to the launch date is back-tested data (i.e., calculations of how the index might have performed over that time period had the index existed). There are frequently material differences between back-tested performance and actual results. Past performance — whether actual or back-tested — is no indication or guarantee of future performance

Index Framework

The MSCI Eurozone Government Bond Index will include fix coupon, local currency, investment grade bonds from sovereign issuers. The index includes government bonds denominated in EUR. Eurozone developed market sovereign issuers are eligible for index inclusion. Developed Markets are defined as per MSCI's Market Classification Framework. Bonds eligible for index inclusion should have a minimum notional amount outstanding of EUR 2 billion and maturity great than or equal to 1 year (new additions should have time to maturity greater than or equal to 1 ½ years) as measured from the Rebalancing Date.

The composition of the MSCI Eurozone Government Bond Index is reviewed monthly, with the Rebalancing Date being the first business date of the month.

This summary is provided for illustrative purposes only and does not include all material elements of the index or its methodology. For a complete description of the index methodology, please see Index methodology - MSCI
