The MSCI MarketAxess EUR IG Tradable Corporate Bond Index was launched on October 18, 2023. Data prior to the launch date is back-tested data (i.e. calculations of how the index might have performed over that time period had the index existed). There are frequently material differences between back-tested performance and actual results. Past performance – whether actual or back-tested – is no indication or guarantee of future performance.

Index Framework

The MSCI MarketAxess EUR IG Tradable Corporate Bond Index is constructed from the MSCI EUR IG Corporate Bond Index and aim to represent the performance of the liquid basket of fixed income securities from the universe of bonds defined by the MSCI Corporate Bond Indexes. The index uses the MarketAxess ��� Relative Liquidity Scores (���RLS���) to identify and select the liquid fixed income securities. In addition to selecting a liquid basket, the index also ensures efficiency by placing appropriate buffers to limit monthly rebalancing turnover.

This summary is provided for illustrative purposes only and does not include all material elements of the index or its methodology. For a complete description of the index methodology, please see Index methodology - MSCI.
