A5X and MSCI announce strategic partnership to develop index-based derivatives for the Brazilian market

The partnership aims to expand access to leading global investment assets for institutional and retail investors in Brazil

São Paulo, November 9th, 2026 – A5X and MSCI Inc. (NYSE: MSCI) have forged a strategic partnership to enable A5X to develop and launch derivatives products based on the MSCI Index family in Brazil, marking an important step in the build-out of A5X's product portfolio ahead of the launch of its derivatives exchange and clearing house, expected in the first half of 2027.

Details of the products covered, and their launch roadmap, will be announced over the next six months.

Derivatives have been one of the key drivers of growth, liquidity and innovation in Brazil's capital markets. Through this partnership with MSCI, a leading provider of indexes for emerging and developed market equities, A5X will expand the range of sophisticated investment solutions available locally, giving Brazilian investors broader access to products linked to some of the world's most widely recognized and tracked indexes.

The partnership also reflects A5X's strategy of working alongside leading global institutions, combining international expertise with a platform built specifically for Brazil, and thereby supporting the continued development, sophistication, and internationalization of the Brazilian capital markets.

"Partnering with MSCI is an important milestone in the development of A5X's product portfolio. Brazil already has one of the largest and most sophisticated derivatives markets in the world, and we believe its next phase of growth will be driven by product innovation and broader access to global investment opportunities. Working with the world's most respected institutions is fundamental to our ambition of building a truly world-class exchange for Brazil," said **Carlos Ferreira Filho, CEO and co-founder of A5X.**

“Brazil's capital markets have grown increasingly sophisticated, and derivatives linked to representative indexes are central to that next stage of growth. As the leading provider of indexes representing the performance of emerging market securities, MSCI is pleased to collaborate with A5X on index-linked derivatives. We're excited to support A5X's ambition of building a world-class derivatives exchange for Brazil," said **Jana Haines, MSCI’s Head of Index.**

About A5X

A5X combines the London Stock Exchange Group's globally proven trading and clearing technology with proprietary technology and infrastructure developed specifically for Brazil, creating an integrated trading and post-trading platform designed for the scale and complexity of the Brazilian derivatives market and the specific requirements of its regulators.
