MSCI Deutschland GmbH Endorsement Committee

May 2026

General

On October 5, 2023, MSCI Deutschland GmbH (located and registered at Junghofstrasse 22-26, Frankfurt am Main, Germany) was granted authorization by Germany’s Federal Financial Supervisory Authority (“BaFin”) as an EU benchmark administrator under EU Benchmark Regulation (EU REGULATION (EU) 2016/1011) (“EU BMR”) for MSCI equity, blended and fixed income indexes. MSCI Deutschland GmbH is administering the MSCI Climate-Transition Benchmarks (CTB) and Paris-Aligned Benchmarks (PAB) since January 2, 2024.

Prior to January 1, 2021, MSCI Limited was an EU regulated benchmark administrator authorized under Article 34 of the EU BMR by the UK FCA and on the ESMA register per Article 36 of the EUR BMR.

As of January 1, 2021, MSCI Limited remained authorized as a UK benchmark administrator regulated by the UK FCA (and can be found on the FCA Financial Services Register), but was considered a “third country” UK administrator vis-a-vis the EU and did not appear on the ESMA register per Article 36 of the EU BMR. MSCI Ltd relied on the EU BMR transition period to maintain EU eligibility for its benchmarks.

The EU BMR transition period expired on December 31, 2025. EU BMR scope reduced starting on January 1, 2026, applying only to critical and significant benchmarks.

In order to service the needs of EU clients for in scope benchmarks from January 1, 2026, MSCI Ltd needed to obtain one of the following: (a) an equivalence decision by the Commission; (b) recognition by ESMA; and (c) endorsement by an EU administrator or other EU supervised entity on or prior to December 31, 2025.

It was proposed that MSCI Deutschland GmbH endorsed MSCI Limited’s indices that are still in scope of the EU BMR (the “Relevant Indices”) pursuant to the application approved by the BaFin on January 19, 2024 for MSCI Deutschland GmbH to endorse certain of MSCI Limited’s indices.

MSCI Deutschland GmbH set up the MSCI Deutschland GmbH EU Endorsement Committee (the “Committee” or “EUEC”) to determine whether to endorse the Relevant Indices and if it does decide to endorse the Relevant Indices to provide ongoing oversight and governance for the endorsement of the Relevant Indices.

The voting members of the Committee are employees of MSCI Inc. subsidiaries incorporated in the European Union with extensive relevant experience. MSCI believes that this helps achieve operational independence which is critical to the Committee’s objectivity, efficiency and management of conflicts of interest in relation to its interactions with MSCI Limited.

All the Committee members are expected to act with integrity as is required of all MSCI employees according to the Code of Ethics and Business Conduct posted on www.msci.com.

All decisions taken by the Committee are the responsibility of its members.

Description

The Committee provides oversight and governance of all aspects of the endorsement process for MSCI Deutschland GmbH.

While the Committee is independent of the other MSCI governance committees including those involved in compliance with the UK/EU BMR such as the MSCI Oversight Committee, MSCI Risk & Regulatory Committee and individual MSCI Index Committees (the “MSCI Committees”), the Committee may rely on MSCI Committees in undertaking aspects of its own responsibilities.

These terms of reference are reviewed and approved by the MSCI Deutschland GmbH director at least annually.

Responsibility

The key responsibilities of the Committee include, but are not limited to, the following:

- Make recommendations to the MSCI Deutschland GmbH director about decisions for MSCI Deutschland GmbH to endorse any Relevant Indices; in particular, taking into consideration whether the requirements in Article 33 of the EU BMR are appropriately addressed.
- Oversee the ongoing appropriateness of any endorsement and make recommendations to the MSCI Deutschland GmbH director for any decisions in relation to such endorsement.
- Monitor the activities of the MSCI Committees to such extent necessary to perform MSCI Deutschland GmbH's activities as endorser of the Relevant Indices.
- Where necessary to support the endorsement or ongoing endorsement of any Relevant Indices, make recommendations to MSCI stakeholders relating to the Relevant Indices.

Composition

The Committee is comprised of the following voting members:

Axel Kilian (MSCI Deutschland GmbH board member and Chairperson of the Committee), Sofia Melo (Compliance), Alexander Dobrinevski (Index Research).

A member of MSCI Benchmark Compliance representing MSCI Limited will attend as a non-voting guest.

Membership of the Committee is based on the members' experience and roles. Changes in membership or chairperson are proposed by the Committee and approved by the MSCI Deutschland GmbH director.

Membership shall be revoked for the following reasons:

- The member notifies the committee of his or her decision to resign from the Committee.
- The member is no longer an employee of an MSCI Inc. subsidiary incorporated in the European Union or his or her role changes significantly.
- The member does not fulfill or is not capable of fulfilling his or her responsibilities on the Committee, including attendance at meetings.
- Where membership is revoked, the Committee will use its best efforts to appoint a replacement member as soon as reasonably practicable.

Membership of and Attendance at MSCI Committee Meetings

Members of the Committee will attend various MSCI Committee meetings and will inform other Committee members of relevant items at annual meetings or on an ad hoc basis, as necessary.

Committee Meetings

Meetings are to be held annually and on an ad hoc basis as needed and may be attended in person or remotely.

- The chairperson and at least one other voting member of the committee must be present at any meeting. Each voting member has one vote.
- In instances when a Committee decision is required and scheduling an ad-hoc meeting is not possible, such a decision may be reached via email communication.
- Decisions will be taken by simple majority of the voting members present at a meeting or voting by email.

- Members must disclose any potential conflict of interest before each agenda item and recuse themselves from any discussions where they have a conflict of interest. This will be recorded in the minutes.
- The Committee may ask any personnel to attend or to present at the meeting. These attendees will not have voting rights.
- If discussion includes disclosure of price sensitive information, any participants, including non-voting members, who are not behind the MSCI Information Wall will be excused.
- The agendas for all the Committee meetings contain the date, time, expected attendees and topics. Topics presented at the Committee may have supporting documents.
- Generally, the minutes of all Committee meetings contain the date, time, attendees, topics discussed and decisions made.
- The secretary will record minutes of each meeting, which will be retained for at least five years.

All rights in the Information are reserved by MSCI and its Information Providers and user(s) shall not, nor assist others to, challenge or assert any rights in the Information.

Unless you contact MSCI and receive its prior written permission, you must NOT use the Information, directly or indirectly, in whole or in part (i) for commercial purposes, (ii) in a manner that competes with MSCI or impacts its ability to commercialize the Information or its services, (iii) to provide a service to a third party, (iv) to permit a third party to directly or indirectly access, use or resell the Information, (v) to redistribute or resell the Information in any form, (vi) to include the Information in any materials for public dissemination such as fund factsheets, market presentations, prospectuses, and investor information documents (e.g. KIID or KIDs), (vii) to create or as a component of any financial products, whether listed or traded over the counter or on a private placement basis or otherwise, (viii) to create any indexes, ratings or other data products, including in derivative works combined with other indexes or data or as a policy, product or performance benchmarks for active, passive or other financial products, (ix) to populate a database, or (x) to train, use as an input to, or otherwise in connection with any artificial intelligence, machine learning, large language models or similar technologies except as licensed and expressly authorized under MSCI's AI Contracting Supplement at <https://www.msci.com/legal/supplemental-terms-for-client-use-of-artificial-intelligence>.

The intellectual property rights of MSCI and its Information Providers may not be misappropriated or used in a competitive manner through the use of third-party data or financial products linked to the Information, including by using an MSCI index-linked future or option in a competing third-party index to provide an exposure to the underlying MSCI index or by using an MSCI index-linked ETF to create a financial product that provides an exposure to the underlying MSCI index without obtaining a license from MSCI.

The user or recipient of the Information assumes the entire risk of any use it may make, permit or cause to be made of the Information. NONE OF THE INFORMATION PROVIDERS MAKES ANY EXPRESS OR IMPLIED WARRANTIES OR REPRESENTATIONS WITH RESPECT TO THE INFORMATION (OR THE RESULTS TO BE OBTAINED BY THE USE THEREOF), AND TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, EACH INFORMATION PROVIDER EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES (INCLUDING ANY IMPLIED WARRANTIES OF ORIGINALITY, ACCURACY, TIMELINESS, SUITABILITY, NON-INFRINGEMENT, COMPLETENESS, MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE) WITH RESPECT TO ANY OF THE INFORMATION. Without limiting any of the foregoing and to the maximum extent permitted by applicable law, in no event shall MSCI or any other Information Provider have any liability arising out of or relating to any of the Information, including for any direct, indirect, special, punitive, consequential (including lost profits) or any other damages, even if notified of the possibility of such damages. The foregoing shall not exclude or limit any liability that may not by applicable law be excluded or limited.

The Information, including index construction, ratings, historical data, or analysis, is not a prediction or guarantee of future performance, and must not be relied upon as such. Past performance is not indicative of future results. The Information may contain back tested data. Back-tested performance based on back-tested data is not actual performance but is hypothetical. There are frequently material differences between back tested performance results and actual results subsequently achieved by any investment strategy. The Information may include "Signals," defined as quantitative attributes or the product of methods or formulas that describe or are derived from calculations using historical data. Signals are inherently backward-looking because of their use of historical data, and they are inherently inaccurate, not intended to predict the future and must not be relied upon as such. The relevance, correlations and accuracy of Signals frequently change materially over time.

The Information may include data relating to indicative prices, evaluated pricing or other information based on estimates or evaluations (collectively, "Evaluations") that are not current and do not reflect real-time traded prices. No evaluation method, including those used by the Information Providers, may consistently generate evaluations or estimates that correspond to actual "traded" prices of any relevant securities or other assets. Evaluations are subject to change at any time without notice and without any duty to update or inform you, may not reflect prices at which actual transactions or collateral calls may occur or have occurred. The market price of securities, financial instruments, and other assets can be determined only if and when executed in the market. There may be no, or may not have been any, secondary trading market for the relevant securities, financial instruments or other assets. Private capital, equity, credit and other assets and their prices may be assessed infrequently, may not be priced on a secondary market, and shall not be relied upon as an explicit or implicit valuation of a particular instrument. Any reliance on fair value estimates and non-market inputs introduces potential biases and subjectivity. Internal Rate of Return metrics are not fully representative without full disclosure of fund cash flows, assumptions, and time horizons.

The Information does not constitute, and must not be relied upon as, investment advice, credit ratings, or proxy advisory or voting services. None of the Information Providers, their products or services, are fiduciaries or make any recommendation, endorsement, or approval of any investment decision or asset allocation. Likewise, the Information does not represent an offer to sell, a solicitation to buy, or an endorsement of any security, financial product, instrument, investment vehicle, or trading strategy, whether or not linked to or in any way based on any MSCI index, rating, subcomponent, or other Information (collectively, "Linked Investments"). The Information should not be relied on and is not a substitute for the skill, judgment and experience of any user when making investment and other business decisions. MSCI is not responsible for any user's compliance with applicable laws and regulations. All Information is impersonal, not tailored to the needs of any person, entity or group of persons, not objectively verifiable in every respect, and may not be based on information that is important to any user.

It is not possible to invest in an index. Exposure to an asset class or trading strategy or other category represented by an index is only available through third party investable instruments (if any) based on that index. MSCI makes no assurance that any Linked Investments will accurately track index performance or provide positive investment returns. Index returns do not represent results of actual trading of investible assets/securities. MSCI maintains and calculates indexes but does not manage assets. The calculation of indexes and index returns may deviate from the stated methodology. Index returns do not reflect payment of any sales charges or fees an investor may pay to purchase securities underlying the index or Linked Investments. The imposition of these fees and charges would cause the performance of a Linked Investment to be different than the MSCI index performance.
