General

MSCI uses a committee structure to provide overall oversight and governance for the design, calculation and maintenance of MSCI indexes¹ as follows:

- Oversight as required by the EU benchmark regulation and any similar post-Brexit UK regulation (collectively, the “BMR”) is provided by the BMR Oversight Committee (“OC”).
- A Risk and Regulatory Committee presides over operational and business risk and regulatory compliance matters.
- The Index Policy Committee (“IPC”) presides over major methodology developments and changes as well as equity market classification decisions, and is an escalation point for any index committee.
- An Index Committee presides over the development, review and interpretation of index methodologies and other matters described in the relevant terms of reference.

All the committees are staffed solely by MSCI group company employees with extensive relevant experience.

All committee members are expected to act with integrity as is required of all our employees according to our Code of Ethics and Business Conduct posted on www.msci.com, and are subject to MSCI’s compliance policies, including with respect to confidential information and relevant MSCI Information Walls.

All decisions taken by the committees are the responsibility of their members.

MSCI believes that its editorial and operational independence is critical to its objectivity, efficiency and avoiding conflicts of interest.

¹ For the purpose of this document, “indexes” refer to MSCI equity, blended, digital assets, ETF linked and venture-backed private company indexes.

The Equity Index Committee

Description

For MSCI's equity, blended, digital assets, ETF linked and venture-backed private company indexes, the index committee is known as the Equity Index Committee ("EIC").

The EIC presides over the development, review and interpretation of index methodologies. MSCI equity indexes, digital assets indexes, ETF linked, venture-backed private company indexes as well as blended indexes, which combine MSCI equity indexes with indexes representing other asset classes or indexes, fall under responsibility of the EIC.

These terms of reference are reviewed and approved by the OC annually.

Responsibility

- The key responsibilities of the EIC include, but are not limited to, the following:
- Review and approve new methodologies, including methodology books, methodology changes and market reclassifications.
- Review and approve the results of the regular index rebalancings for the Global Investable Market Indexes.
- Review and approve the results of regular index rebalancing of indexes governed by other methodologies, as escalated by index research. Provide the IPC with highlights of rebalancing results.
- Review and approve complex or exceptional corporate event treatment that cannot be addressed by current methodologies, escalated by the Corporate Events team.
- Review and approve all proposals for index terminations not directly as a result of a methodology. Some index terminations may be escalated to the IPC.
- Approve or propose consultations, review feedback, and decide if methodology changes are needed.
- Determine what changes are significant after considering relevant factors such as operational impact on market participants and estimated turnover and transaction costs associated with the changes.
- Review and approve the MSCI Index Policies document.
- Delegate signoffs and decisions to sub-committees and functional teams for index changes that strictly follow the methodologies.
- May elect to escalate issues to the IPC for changes that it deems major or in cases where there is no agreement / decision. All market classification decisions are escalated to the IPC.

Composition

- The EIC is composed of seven voting members with significant experience and seniority selected from MSCI's Index Research.
- The EIC may elect to add non-voting members selected from MSCI's Index Research and Data teams. Designated non-voting members may act as a substitute if no quorum is reached.
- Changes to voting members are proposed by the EIC and approved by the IPC.

Meetings

- The EIC is scheduled to meet once a week. In addition, the EIC meets on an ad-hoc basis if required.
- Regular meetings require the attendance of at least three members. Plenary meetings require the attendance of the IPC Chair and all members of the EIC. In case no quorum² can be reached, designated non-voting members may act as a substitute.
- Topics are requested by members or other parties. If there are no topics or no quorum, the meeting is cancelled.
- The agendas for all EIC meetings contain the date, time, expected attendees and topics. All topics presented at the EIC generally have supporting documents.
- Generally, the minutes of all EIC meetings contain the date, time, attendees, material conflicts of interests (if any), topics discussed, and decisions made. The secretary will record minutes of each meeting, which will be retained for at least five years.

In instances when an EIC decision is required prior to a regular meeting and scheduling an ad-hoc EIC meeting is not possible, such decision may be reached via email communication, provided at least three members of the EIC explicitly approve a proposal. New index methodologies not requiring detailed discussion may also be approved via email communication, based on circulated methodology documents and/or additional supporting materials. In case of exceptionally time critical, typically market driven topics, consent of two EIC members is sufficient. In case no quorum can be reached within 24 hours, designated non-voting members may act as a substitute. Topics for which non-voting members acted as a substitute are brought to attention of the EIC at the next scheduled meeting.

February 2018 updates:

- Responsibility
 - clarification on the role of the Index Equity Committee (EIC) in index termination decisions
- Meetings
 - change in the EIC voting rules in the cases when quorum cannot be reached

August 2018 updates:

- Meetings
 - clarification on the definition of quorum

February 2019 updates:

- Responsibilities
 - clarification on the new methodology book approvals

² Three voting EIC members are required to constitute quorum.

- Meetings
 - clarification on the definition of quorum

-

June 2019 updates:

- Responsibilities
 - clarification on the key responsibilities of the EIC

November 2020 updates:

- Composition
 - clarification on the composition of the EIC

September 2021 updates:

- Composition
 - clarification on the composition of the EIC

November 2022 updates:

- Meetings
 - Expansion of the contents of minutes to include consideration of potential material conflicts of interests declared by EIC members

July 2023 updates:

- Composition
 - clarification on the composition of the EIC

November 2023 updates:

Description

- Addition of digital assets benchmark family in the purview of EIC

January 2024 updates:

Description

- Clarification on identifying information barriers as MSCI Information Walls

June 2024 updates:

Description

- Addition of ETF linked index benchmark family in the purview of EIC

December 2025 updates:

Description

- Addition of venture-backed private company benchmark family in the purview of EIC

Notice and disclaimer

The data, data feeds, databases, reports, text, graphs, charts, images, videos, recordings, models, metrics, analytics, indexes, ratings, scores, cases, estimates, assessments, software, websites, products, services and other information and materials contained herein or delivered in connection with this notice (collectively, the "Information") are copyrighted, trade secrets (when not publicly available), trademarks and proprietary property of MSCI Inc. or its subsidiaries (collectively, "MSCI"), MSCI's licensors, direct or indirect suppliers and authorized sources, and/or any third party contributing to the Information (collectively, with MSCI, the "Information Providers"). All rights in the Information are reserved by MSCI and its Information Providers and user(s) shall not, nor assist others to, challenge or assert any rights in the Information.

Unless you contact MSCI and receive its prior written permission, you must NOT use the Information, directly or indirectly, in whole or in part (i) for commercial purposes, (ii) in a manner that competes with MSCI or impacts its ability to commercialize the Information or its services, (iii) to provide a service to a third party, (iv) to permit a third party to directly or indirectly access, use or resell the Information, (v) to redistribute or resell the Information in any form, (vi) to include the Information in any materials for public dissemination such as fund factsheets, market presentations, prospectuses, and investor information documents (e.g. KIIDs or KIDs), (vii) to create or as a component of any financial products, whether listed or traded over the counter or on a private placement basis or otherwise, (viii) to create any indexes, ratings or other data products, including in derivative works combined with other indexes or data or as a policy, product or performance benchmarks for active, passive or other financial products, (ix) to populate a database, or (x) to train, use as an input to, or otherwise in connection with any artificial intelligence, machine learning, large language models or similar technologies except as licensed and expressly authorized under MSCI's AI Contracting Supplement at <https://www.msci.com/legal/supplemental-terms-for-client-use-of-artificial-intelligence>.

The intellectual property rights of MSCI and its Information Providers may not be misappropriated or used in a competitive manner through the use of third-party data or financial products linked to the Information, including by using an MSCI index-linked future or option in a competing third-party index to provide an exposure to the underlying MSCI index or by using an MSCI index-linked ETF to create a financial product that provides an exposure to the underlying MSCI index without obtaining a license from MSCI.

The user or recipient of the Information assumes the entire risk of any use it may make, permit or cause to be made of the Information. NONE OF THE INFORMATION PROVIDERS MAKES ANY EXPRESS OR IMPLIED WARRANTIES OR REPRESENTATIONS WITH RESPECT TO THE INFORMATION (OR THE RESULTS TO BE OBTAINED BY THE USE THEREOF), AND TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, EACH INFORMATION PROVIDER EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES (INCLUDING ANY IMPLIED WARRANTIES OF ORIGINALITY, ACCURACY, TIMELINESS, SUITABILITY, NON-INFRINGEMENT, COMPLETENESS, MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE) WITH RESPECT TO ANY OF THE INFORMATION. Without limiting any of the foregoing and to the maximum extent permitted by applicable law, in no event shall MSCI or any other Information Provider have any liability arising out of or relating to any of the Information, including for any direct, indirect, special, punitive, consequential (including lost profits) or any other damages, even if notified of the possibility of such damages. The foregoing shall not exclude or limit any liability that may not by applicable law be excluded or limited.

The Information, including index construction, ratings, historical data, or analysis, is not a prediction or guarantee of future performance, and must not be relied upon as such. Past performance is not indicative of future results. The Information may contain back tested data. Back-tested performance based on back-tested data is not actual performance but is hypothetical. There are frequently material differences between back tested performance results and actual results subsequently achieved by any investment strategy. The Information may include "Signals," defined as quantitative attributes or the product of methods or formulas that describe or are derived from calculations using historical data. Signals are inherently backward-looking because of their use of historical data, and they are inherently inaccurate, not intended to predict the future and must not be relied upon as such. The relevance, correlations and accuracy of Signals frequently change materially over time.

The Information may include data relating to indicative prices, evaluated pricing or other information based on estimates or evaluations (collectively, "Evaluations") that are not current and do not reflect real-time traded prices. No evaluation method, including those used by the Information Providers, may consistently generate evaluations or estimates that correspond to actual "traded" prices of any relevant securities or other assets. Evaluations are subject to change at any time without notice and without any duty to update or inform you, may not reflect prices at which actual transactions or collateral calls may occur or have occurred. The market price of securities, financial instruments, and other assets can be determined only if and when executed in the market. There may be no, or may not have been any, secondary trading market for the relevant securities, financial instruments or other assets. Private capital, equity, credit and other assets and their prices may be assessed infrequently, may not be priced on a secondary market, and shall not be relied upon as an explicit or implicit valuation of a particular instrument. Any reliance on fair value estimates and non-market inputs introduces potential biases and subjectivity. Internal Rate of Return metrics are not fully representative without full disclosure of fund cash flows, assumptions, and time horizons.

The Information does not constitute, and must not be relied upon as, investment advice, credit ratings, or proxy advisory or voting services. None of the Information Providers, their products or services, are fiduciaries or make any recommendation, endorsement, or approval of any investment decision or asset allocation. Likewise, the Information does not represent an offer to sell, a solicitation to buy, or an endorsement of any security, financial product, instrument, investment vehicle, or trading strategy, whether or not linked to or in any way based on any MSCI index, rating, subcomponent, or other Information (collectively, "Linked Investments"). The Information should not be relied on and is not a substitute for the skill, judgment and experience of any user when making investment and other business decisions. MSCI is not responsible for any user's compliance with applicable laws and regulations. All Information is impersonal, not tailored to the needs of any person, entity or group of persons, not objectively verifiable in every respect, and may not be based on information that is important to any user. It is not possible to invest in an index. Exposure to an asset class or trading strategy or other category represented by an index is only available through third party investable instruments (if any) based on that index. MSCI makes no assurance that any

Linked Investments will accurately track index performance or provide positive investment returns. Index returns do not represent results of actual trading of investible assets/securities. MSCI maintains and calculates indexes but does not manage assets. The calculation of indexes and index returns may deviate from the stated methodology. Index returns do not reflect payment of any sales charges or fees an investor may pay to purchase securities underlying the index or Linked Investments. The imposition of these fees and charges would cause the performance of a Linked Investment to be different than the MSCI index performance.

Information provided by MSCI Solutions LLC and certain related entities (“MSCI Solutions”), including materials utilized in MSCI sustainability and climate products, have not been submitted to, nor received approval from any regulatory body. MSCI sustainability and climate offerings, research and data are produced by, and ratings are solely the opinion of MSCI Solutions. Other MSCI products and services may utilize information from MSCI Solutions, Barra LLC or other affiliates. More information can be found in the relevant methodologies on www.msci.com. MSCI Indexes are administered by MSCI Limited (UK) and MSCI Deutschland GmbH. No regulated use of any MSCI private real assets indexes in any jurisdiction is permitted without MSCI’s express written authorization. The process for applying for MSCI’s express written authorization can be found at: <https://www.msci.com/index-regulation>.

MSCI receives compensation in connection with licensing its indexes and other Information to third parties. MSCI Inc.’s revenue includes fees based on assets in Linked Investments. Information can be found in MSCI Inc.’s company filings on the Investor Relations section of msci.com. Issuers mentioned in MSCI Solutions materials or their affiliates may purchase research or other products or services from one or more MSCI affiliates, manage financial products such as mutual funds or ETFs rated by MSCI Solutions or its affiliates or are based on MSCI Indexes. Constituents of MSCI equity indexes are listed companies, which are included in or excluded from the indexes according to the application of the relevant index methodologies. Constituents in MSCI Inc. equity indexes may include MSCI Inc., clients of MSCI or suppliers to MSCI. MSCI Solutions has taken steps to mitigate potential conflicts of interest and safeguard the integrity and independence of its research and ratings.

MIFID2/MIFIR notice: MSCI Solutions does not distribute or act as an intermediary for financial instruments or structured deposits, nor does it deal on its own account, provide execution services for others or manage client accounts. No MSCI product or service supports, promotes or is intended to support or promote any such activity. MSCI Solutions is an independent provider of sustainability and climate data. All use of indicative prices for carbon credits must comply with any rules specified by MSCI. All transactions in carbon credits must be traded “over-the-counter” (i.e. not on a regulated market, trading venue or platform that performs a similar function to a trading venue) and result in physical delivery of the carbon credits.

You may not remove, alter, or obscure any attribution to MSCI or notices or disclaimers that apply to the Information. MSCI, Barra, RiskMetrics, and other MSCI brands and product names are the trademarks, service marks, or registered trademarks of MSCI or its subsidiaries in the United States and other jurisdictions. The Global Industry Classification Standard (GICS) was developed by and is the exclusive property of MSCI and S&P Dow Jones Indices. “Global Industry Classification Standard (GICS)” is a service mark of MSCI and S&P Dow Jones Indices. Terms such as including, includes, for example, such as and similar terms used herein are without limitation.

MSCI and its Information Providers may use automated technologies and artificial intelligence to help generate content and output incorporated in the Information.

Privacy notice: For information about how MSCI collects and uses personal data, please refer to our Privacy Notice at: <https://www.msci.com/privacy-pledge>. For copyright infringement claims contact us at dmca@msci.com. This notice is governed by the laws of the State of New York without regard to conflict of laws principles.
