Approved AI List for AI Contract Supplement

MSCI permits limited use of its Services with appropriately-licensed, enterprise AI (meaning private, walled-off, and internal among affiliates) that is approved by MSCI below (**"Approved AI"**), subject in each case to the MSCI AI Contract Supplement and the license terms applicable to the Services.

Specifically, MSCI allows limited use of its Services **only** with the following enterprise **Approved AI**:

- **OpenAI** (ChatGPT enterprise)

- **Google** (Gemini enterprise)

- **Anthropic** (Claude enterprise)

- **Amazon** (Bedrock and Nova enterprise)

- **Microsoft** (Microsoft Copilot enterprise)

- **Perplexity** (enterprise version)

- **IBM** (WatsonX enterprise)

- **Oracle** (Oracle Cloud Infrastructure enterprise AI services)

- **Meta** (LLaMa, enterprise hosted)

- **Mistral** (Mistral models, enterprise hosted)

- **Databricks** (MosaicML enterprise)

- **Snowflake** (Snowflake Cortex enterprise)

(i) Approved AI may be hosted by any enterprise provider listed above.

(ii) Third-party AI not listed above and internally-developed AI requires separate permission from MSCI, including when hosted on or accessed through a provider listed above.

(iii) Use of licensed delivery methods and third-party service providers and distributors (including Snowflake, Databricks and others listed above) requires separate permission from MSCI.

MSCI may update this list from time to time by providing Notice (as defined in the AI Contract Supplement) to Clients.
