1 General Methodology Overview

MSCI Corporate Bond Indexes aim to serve as a measure of performance of the credit markets. The indexes are designed to represent relative performance at various levels of the investment process.

The MSCI Corporate Bond Indexes conform to a general construction guideline as described in this methodology. They are rules based with consideration to the following factors:

- Size
- Maturity
- Credit Rating

The indexes are designed to be replicable irrespective of the institutional investor's domicile.

2 Index Construction

2.1 General guidelines

Security Type: The MSCI Corporate Bond Indexes include securities selected from the global credit universe. In general, the universe includes all bullet, callable, and puttable fixed rate coupon bonds. Issues with tax-advantages, index-linked and perpetual bonds are excluded. In terms of capital structure, only senior secured, senior unsecured and subordinated (both junior and senior) debt are included. Capital securities, such as preferred stock, are not eligible to be part of the index.

Note that inclusion and exclusion based on security types may vary across currencies and credit rating buckets.

Credit Rating: Each index constituent must be rated by either by S&P or Moody’s. For bonds that are rated by both S&P and Moody’s, the lower rating will be used to determine the index inclusion criteria.

The table below summarizes higher and lower rating thresholds for MSCI Investment Grade (IG) Corporate Bond Indexes and MSCI High Yield (HY) Corporate Bond Indexes.

	S&P Rating		Moody’s Rating	
	Higher Rating Threshold	Lower Rating Threshold	Higher Rating Threshold	Lower Rating Threshold
IG	AAA	BBB-	Aaa	Baa3
HY	BB+	CC	Ba1	Ca2

Issuer Country of Domicile: Securities included in the MSCI Corporate Bond Indexes must belong to issuers domiciled in the Developed Market universe as per MSCI Market Classification¹.

Maturity: Each index constituent must have a maturity greater than or equal to 1 year as measured from the Rebalancing Date (defined below). New additions to the index

¹ As per MSCI Global Investable Market Indexes (GIMI) Methodology. Please see Appendix I for the list of countries

must have a maturity greater than or equal to 1 ½ years as measured from the Rebalancing Date.

Corporate Event: New additions to the index must not have any known corporate events which will result in notional amount outstanding of the bond falling below the minimum bond size criteria over the next 1 month as measured from the Rebalancing Date.

Weighting: MSCI Corporate Bond Indexes are issuance weighted indexes. Index constituents will be weighted by market value² within the index.

Pricing: MSCI uses bid side pricing from data vendors. Securities included in the index are priced to par. Securities not priced by the designated pricing source are ineligible for index inclusion.

Settlement: MSCI applies standard same-day (T+0) index settlement convention, unless otherwise specified.

² Please refer to MSCI Fixed Income Index calculation methodology for further details on calculation of market value.

2.2 MSCI USD Corporate Bond Indexes

MSCI USD Corporate Bond Indexes include corporate debt denominated in the USD currency. Security types eligible and ineligible for index inclusion are tabulated below.

Eligible Security Types	Ineligible Security Types
Corporate Debt only ³	Floating Rate Coupon Bonds
Senior and Subordinated Issues	Zero Coupon Bonds
Puttable and Callable Bonds	Inflation Protected Bonds
Bullet Bonds	Perpetual Bonds
Bonds with Step-up / Step-down Coupons	Bonds with sinking fund provision
144a bonds ⁴	PIKs
Fixed to Floating Rate Bonds are eligible for inclusion during their fixed rate term only. They are excluded 1 year prior to the conversion date as measured from the Rebalancing Date.	Private Placements
	Dual Currency
	Strippable Bonds (IO/PO)
	Hybrids (Convertibles / Preferred Shares / Warrants etc.)

Size: MSCI calibrates and determines size-based index inclusion criteria to balance representativeness and liquidity in each credit universe.

At a security level size is determined by its notional amount outstanding, whereas at an issuer level size is determined by issuer's total amount outstanding⁵. Each security included in the MSCI USD Corporate Bond Indexes will have size greater than or equal to the thresholds tabulated below.

³ Corporate issuers classified as government owned as per MSCI data vendors are excluded from the index

⁴ MSCI Investment Grade (IG) Corporate Bond Indexes only include 144a bonds with registration rights, whereas MSCI High Yield (HY) Corporate Bond Indexes include both, 144a bonds with registration rights and 144a bonds without registration rights

⁵ Please refer to MSCI Fixed Income Data Methodology document for details on the calculation of Issuer amount outstanding

Index	Security Size Threshold	Issuer Size Threshold
MSCI USD IG Corporate Bond Index	USD 750 million	USD 2 billion
MSCI USD HY Corporate Bond Index	USD 200 million	-

3 Index Rebalancing & Maintenance

- The composition of the MSCI Corporate Bond Index is reviewed **monthly**, with Rebalancing Date being first business date of the month.
- Change in the index composition is based on latest data available as of three days prior to the Rebalancing Date, which is defined as the Cut-Off Date
- MSCI will announce proforma index rebalancing results as of the Cut-Off Date.
- Bonds are added to or deleted from the index only on monthly rebalancing dates, except in case of an exchange event⁶. For the existing index components any changes to index eligibility will only be reflected in the next monthly rebalancing.
- Any inclusion or exclusion criteria satisfied for a given security in the universe, after the Cut-Off Date, will generally become effective at the following monthly rebalancing; should conditions remain unchanged.
- Any cash that accrues within the index in a given month is re-invested on a pro-rata basis across the index constituents, on the Rebalancing Date. In essence, cash in the index is swept out on rebalancing and the opening index portfolio on the Rebalancing Date starts with zero accrued cash balance.
- Certain variants of total return calculation of the index on the Rebalancing Date may be adjusted for transaction cost⁷ as securities are added to the index at the offer price.

For further information on index total return calculation, corporate events handling, and holiday calendar please refer to the MSCI Fixed Income Index Calculation Methodology⁸.

MSCI leverages GICS^{®9} sector classification framework for MSCI Corporate Bond Indexes as well. Please refer to MSCI GICS Methodology for details.

5 **Appendix II: Changes to the methodology book**

The following sections have been modified since June 2020:

Section 2 Index Construction

- Realigned Sections 2.1 and 2.2. Section 2.1 now addresses general index construction guidelines followed by all MSCI Corporate Bond Indexes
- Section 2.2 addresses specific rules pertaining to the construction of MSCI USD Corporate Bond Indexes

Section 2.2 MSCI USD Corporate Bond Indexes

- Added a footnote on pg. 6 to clarify the inclusion criteria for government owned corporate entities.
- Added a footnote on pg. 6 to distinguish the rules for inclusion of 144a bonds between MSCI IG Corporate Bond Indexes and MSCI HY Corporate Bond Indexes.
- Removed the exclusion of bonds with equity clawback provision.
- On pg. 7 added the amount outstanding cutoff used in the construction of MSCI USD HY Corporate Bond Indexes.

Appendix

- Added list of developed market countries in Appendix I
- Added change log for the methodology book in Appendix II

The user of the Information assumes the entire risk of any use it may make or permit to be made of the Information. NONE OF THE INFORMATION PROVIDERS MAKES ANY EXPRESS OR IMPLIED WARRANTIES OR REPRESENTATIONS WITH RESPECT TO THE INFORMATION (OR THE RESULTS TO BE OBTAINED BY THE USE THEREOF), AND TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, EACH INFORMATION PROVIDER EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES (INCLUDING, WITHOUT LIMITATION, ANY IMPLIED WARRANTIES OF ORIGINALITY, ACCURACY, TIMELINESS, NON-INFRINGEMENT, COMPLETENESS, MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE) WITH RESPECT TO ANY OF THE INFORMATION.

Without limiting any of the foregoing and to the maximum extent permitted by applicable law, in no event shall any Information Provider have any liability regarding any of the Information for any direct, indirect, special, punitive, consequential (including lost profits) or any other damages even if notified of the possibility of such damages. The foregoing shall not exclude or limit any liability that may not by applicable law be excluded or limited, including without limitation (as applicable), any liability for death or personal injury to the extent that such injury results from the negligence or willful default of itself, its servants, agents or sub-contractors.

Information containing any historical information, data or analysis should not be taken as an indication or guarantee of any future performance, analysis, forecast or prediction. Past performance does not guarantee future results.

The Information should not be relied on and is not a substitute for the skill, judgment and experience of the user, its management, employees, advisors and/or clients when making investment and other business decisions. All Information is impersonal and not tailored to the needs of any person, entity or group of persons.

None of the Information constitutes an offer to sell (or a solicitation of an offer to buy), any security, financial product or other investment vehicle or any trading strategy.

It is not possible to invest directly in an index. Exposure to an asset class or trading strategy or other category represented by an index is only available through third party investable instruments (if any) based on that index. MSCI does not issue, sponsor, endorse, market, offer, review or otherwise express any opinion regarding any fund, ETF, derivative or other security, investment, financial product or trading strategy that is based on, linked to or seeks to provide an investment return related to the performance of any MSCI index (collectively, "Index Linked Investments"). MSCI makes no assurance that any Index Linked Investments will accurately track index performance or provide positive investment returns. MSCI Inc. is not an investment adviser or fiduciary and MSCI makes no representation regarding the advisability of investing in any Index Linked Investments.

Index returns do not represent the results of actual trading of investable assets/securities. MSCI maintains and calculates indexes, but does not manage actual assets. Index returns do not reflect payment of any sales charges or fees an investor may pay to purchase the securities underlying the index or Index Linked Investments. The imposition of these fees and charges would cause the performance of an Index Linked Investment to be different than the MSCI index performance.

The Information may contain back tested data. Back-tested performance is not actual performance, but is hypothetical. There are frequently material differences between back tested performance results and actual results subsequently achieved by any investment strategy.

Constituents of MSCI equity indexes are listed companies, which are included in or excluded from the indexes according to the application of the relevant index methodologies. Accordingly, constituents in MSCI equity indexes may include MSCI Inc., clients of MSCI or suppliers to MSCI. Inclusion of a security within an MSCI index is not a recommendation by MSCI to buy, sell, or hold such security, nor is it considered to be investment advice.

Data and information produced by various affiliates of MSCI Inc., including MSCI ESG Research LLC and Barra LLC, may be used in calculating certain MSCI indexes. More information can be found in the relevant index methodologies on www.msci.com.

MSCI receives compensation in connection with licensing its indexes to third parties. MSCI Inc.'s revenue includes fees based on assets in Index Linked Investments. Information can be found in MSCI Inc.'s company filings on the Investor Relations section of www.msci.com.
