1 Introduction

The MSCI USA IMI Innovation Select Index (the 'Index') aims to represent the performance of a set of companies that are associated with the development of new products and services focused on the following themes.

- Autonomous Technology & Industrial Innovation
- Genomic Innovation
- Fintech Innovation
- Next Generation Internet Innovation

2 Constructing the Index

2.1 Determining the components of the Index

The Index is constructed from four MSCI Thematic Indexes¹ ('Component Indexes'), developed in collaboration with ARK Invest:

- MSCI ACWI IMI Autonomous Technology & Industrial Innovation Index
- MSCI ACWI IMI Genomic Innovation Index
- MSCI ACWI IMI Fintech Innovation Index
- MSCI ACWI IMI Next Generation Internet Innovation Index

MSCI may seek input from ARK Invest on the ongoing evolution of the themes underlying the Component Indexes. However, such input is advisory only in nature. MSCI alone decides whether to use such input at all or to what extent. Receipt of such input, like any other feedback on MSCI indexes, may or may not lead to a change to the index or index methodology.

2.2 Determining the constituents of the Index

2.2.1 Intermediate Universe

An Intermediate Universe is constructed from each of the Component Indexes described in section 2.1. This is constructed by excluding securities which do not fulfill one or more of the three conditions below:

- 1) 3-month Average Daily Traded Value (ADTV)² is less than US\$ 20 million
- 2) Not listed on US exchanges³
- 3) Relevance Score⁴ in the respective Component Index is less than 75%

From the remaining stocks in each Component Index, the top 15 by float adjusted market cap weight in the Parent Index⁵ are selected. If there are less than 15 stocks

¹ Please refer to <https://www.msci.com/index-methodology> for the methodology of the Component Indexes.

² Please refer to the MSCI Index Calculation Methodology for the calculation of Annualized Traded Value

³ New York Stock Exchange (NYSE), NASDAQ, NYSE American, NYSE Arca, BATS Exchange (BZX)

⁴ Please refer to <https://www.msci.com/index-methodology> for the methodology of the Component Indexes and details of relevance score calculation.

⁵ All Component Indexes have the same Parent Index. Please refer to Appendix 1 of the methodology books of any of the Component Indexes for details of the Parent Index.

remaining from any Component Index, all of them are selected. The weights of selected stocks are then normalized to sum to 100%.

2.2.2 Selected Universe

The Selected Universe is constructed by combining stocks from the Intermediate Universe from each Component Index.

2.3 Determining the weights of the constituents of the Index

The weight of each stock in the Index is calculated as follows:

$$w_i^{Index} = \sum_{C(j)} 0.25 \times w_i^{C(j)}$$

where:

- w_i^{Index} is the weight of stock i in the Index
- $w_i^{C(j)}$ is the weight of stock i in the Intermediate Universe from Component $C(j)$

Note that $w_i^{C(j)} = 0$, if stock i is not in the Intermediate Universe from Component $C(j)$

Additionally, constituent weights are capped at the issuer level to mitigate concentration risk in the Index. The issuer weight in the Index is capped at 5%.

3 Maintaining the Index

3.1 Semi-Annual Index Review

The Index is reviewed on a semi-annual basis in May and November to coincide with the May and November Semi-Annual Index Reviews of the Component Indexes, and the changes are implemented at the end of May and November. In general, the pro forma Index is announced nine business days before the effective date.

During the Semi-Annual Index Review, the Intermediate Universe and Selected Universe are updated.

3.2 Ongoing event-related maintenance

The maintenance of the Index follows the event related maintenance of the Component Indexes. Any change in the number of shares applied in the MSCI Global Investable Market Indexes due to corporate events is also reflected in the Index. Any security deleted from the Component Indexes is simultaneously deleted from the Index (if present).

The Information may not be modified, reverse-engineered, reproduced or disseminated in whole or in part without prior written permission from MSCI. All rights in the Information are reserved by MSCI and/or its Information Providers.

The Information may not be used to create derivative works or to verify or correct other data or information. For example (but without limitation), the Information may not be used to create indexes, databases, risk models, analytics, software, or in connection with the issuing, offering, sponsoring, managing or marketing of any securities, portfolios, financial products or other investment vehicles utilizing or based on, linked to, tracking or otherwise derived from the Information or any other MSCI data, information, products or services.

The user of the Information assumes the entire risk of any use it may make or permit to be made of the Information. NONE OF THE INFORMATION PROVIDERS MAKES ANY EXPRESS OR IMPLIED WARRANTIES OR REPRESENTATIONS WITH RESPECT TO THE INFORMATION (OR THE RESULTS TO BE OBTAINED BY THE USE THEREOF), AND TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, EACH INFORMATION PROVIDER EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES (INCLUDING, WITHOUT LIMITATION, ANY IMPLIED WARRANTIES OF ORIGINALITY, ACCURACY, TIMELINESS, NON-INFRINGEMENT, COMPLETENESS, MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE) WITH RESPECT TO ANY OF THE INFORMATION.

Without limiting any of the foregoing and to the maximum extent permitted by applicable law, in no event shall any Information Provider have any liability regarding any of the Information for any direct, indirect, special, punitive, consequential (including lost profits) or any other damages even if notified of the possibility of such damages. The foregoing shall not exclude or limit any liability that may not by applicable law be excluded or limited, including without limitation (as applicable), any liability for death or personal injury to the extent that such injury results from the negligence or willful default of itself, its servants, agents or sub-contractors.

Information containing any historical information, data or analysis should not be taken as an indication or guarantee of any future performance, analysis, forecast or prediction. Past performance does not guarantee future results.

The Information should not be relied on and is not a substitute for the skill, judgment and experience of the user, its management, employees, advisors and/or clients when making investment and other business decisions. All Information is impersonal and not tailored to the needs of any person, entity or group of persons.

None of the Information constitutes an offer to sell (or a solicitation of an offer to buy), any security, financial product or other investment vehicle or any trading strategy.

It is not possible to invest directly in an index. Exposure to an asset class or trading strategy or other category represented by an index is only available through third party investable instruments (if any) based on that index. MSCI does not issue, sponsor, endorse, market, offer, review or otherwise express any opinion regarding any fund, ETF, derivative or other security, investment, financial product or trading strategy that is based on, linked to or seeks to provide an investment return related to the performance of any MSCI index (collectively, "Index Linked Investments"). MSCI makes no assurance that any Index Linked Investments will accurately track index performance or provide positive investment returns. MSCI Inc. is not an investment adviser or fiduciary and MSCI makes no representation regarding the advisability of investing in any Index Linked Investments.

Index returns do not represent the results of actual trading of investible assets/securities. MSCI maintains and calculates indexes, but does not manage actual assets. Index returns do not reflect payment of any sales charges or fees an investor may pay to purchase the securities underlying the index or Index Linked Investments. The imposition of these fees and charges would cause the performance of an Index Linked Investment to be different than the MSCI index performance.

The Information may contain back tested data. Back-tested performance is not actual performance, but is hypothetical. There are frequently material differences between back tested performance results and actual results subsequently achieved by any investment strategy.

Constituents of MSCI equity indexes are listed companies, which are included in or excluded from the indexes according to the application of the relevant index methodologies. Accordingly, constituents in MSCI equity indexes may include MSCI Inc., clients of MSCI or suppliers to MSCI. Inclusion of a security within an MSCI index is not a recommendation by MSCI to buy, sell, or hold such security, nor is it considered to be investment advice.

Data and information produced by various affiliates of MSCI Inc., including MSCI ESG Research LLC and Barra LLC, may be used in calculating certain MSCI indexes. More information can be found in the relevant index methodologies on www.msci.com.

MSCI receives compensation in connection with licensing its indexes to third parties. MSCI Inc.'s revenue includes fees based on assets in Index Linked Investments. Information can be found in MSCI Inc.'s company filings on the Investor Relations section of www.msci.com.

MSCI ESG Research LLC is a Registered Investment Adviser under the Investment Advisers Act of 1940 and a subsidiary of MSCI Inc. Except with respect to any applicable products or services from MSCI ESG Research, neither MSCI nor any of its products or services recommends, endorses, approves or otherwise expresses any opinion regarding any issuer, securities, financial products or instruments or trading strategies and MSCI's products or services are not intended to constitute investment advice or a recommendation to make (or refrain from making) any kind of investment decision and may not be relied on as such. Issuers mentioned or included in any MSCI ESG Research materials may include MSCI Inc., clients of MSCI or suppliers to MSCI, and may also purchase research or other products or services from MSCI ESG Research. MSCI ESG Research materials, including materials utilized in any MSCI ESG Indexes or other products, have not been submitted to, nor received approval from, the United States Securities and Exchange Commission or any other regulatory body.
