TIAA ESG INDEXES

METHODOLOGY

August 2022
1 Introduction

MSCI Indexes are constructed and maintained in accordance with the MSCI Global Investable Market Indexes Methodology and calculated as per the MSCI Index Calculation Methodology.

This methodology book provides a description of the rules and guidelines followed by MSCI for the construction and maintenance of the TIAA ESG Indexes. The TIAA ESG Indexes (“Indexes”) are created from specified Parent Indexes (defined below) and designed to represent the performance of a strategy that is designed to increase the Index’s exposure to positive environmental, social and governance (ESG) factors as well as exhibit lower carbon exposure than the Parent Index. They also aim to minimize the tracking error relative to the Parent Index through an optimization process.
2 MSCI ESG Research

The Indexes use research provided by MSCI ESG Research LLC. In particular, the Indexes use the following four MSCI ESG Research products: MSCI ESG Ratings, MSCI ESG Controversies, MSCI Business Involvement Screening Research and MSCI Climate Change Metrics.

For details on MSCI ESG Research’s full suite of ESG products, please refer to: https://www.msci.com/esg-integration

2.1 MSCI ESG RATINGS

MSCI ESG Ratings provides research, analysis and ratings of how well companies manage environmental, social and governance risks and opportunities. MSCI ESG Ratings provides an overall company ESG rating - a seven-point scale from ‘AAA’ to ‘CCC’. In addition, the product provides scores and percentiles indicating how well a company manages each key issue relative to industry peers.

For more details on MSCI ESG Ratings, please refer to: https://www.msci.com/esg-ratings

2.2 MSCI ESG CONTROVERSIES

MSCI ESG Controversies (formerly known as MSCI Impact Monitor) provides assessments of controversies concerning the negative environmental, social, and/or governance impact of company operations, products and services. The evaluation framework used in MSCI ESG Controversies is designed to be consistent with international norms represented by the UN Declaration of Human Rights, the ILO Declaration on Fundamental Principles and Rights at Work, and the UN Global Compact. MSCI ESG Controversies Score falls on a 0-10 scale, with “0” being the most severe controversy.

For more details on MSCI ESG Controversies Score, please refer to: https://www.msci.com/documents/10199/acbe7c8a-a4e4-49de-9cf8-5e957245b86b

2.3 MSCI ESG BUSINESS INVOLVEMENT SCREENING RESEARCH

MSCI ESG Business Involvement Screening Research (BISR) aims to enable institutional investors to manage environmental, social and governance (ESG) standards and restrictions reliably and efficiently.

For more details on MSCI ESG Business Involvement Screening Research, please refer to http://www.msci.com/resources/factsheets/MSCI_ESG_BISR.pdf
2.4 MSCI CLIMATE CHANGE METRICS

MSCI Climate Change Metrics is designed to support investors seeking to achieve a range of objectives, including measuring and reporting on climate risk exposure, implementing low carbon and fossil fuel-free strategies, and factoring climate change research into their risk management processes. It provides Carbon Emissions, Fossil Fuel exposure, environmental impact (i.e., clean technology) data and screens, as well as climate-related risk exposure and management assessment on companies such as Low Carbon Transition scores and categories.

For more details on MSCI Climate Change Metrics, please refer to https://www.msci.com/climate-change-solutions
3 Constructing the TIAA ESG Indexes

Constructing the TIAA ESG Indexes involves the following steps:

- Defining the Parent Index
- Defining the ESG Screened Universe
- Defining the Carbon Screened Universe
- Determining the optimized index subject to the optimization constraints

3.1 DEFINING THE PARENT INDEX

Following is the list of the parent indexes for respective TIAA ESG Indexes:

<table>
<thead>
<tr>
<th>TIAA ESG Index</th>
<th>Parent Index</th>
</tr>
</thead>
<tbody>
<tr>
<td>TIAA ESG USA Large-Cap Growth Index</td>
<td>MSCI USA Growth Index</td>
</tr>
<tr>
<td>TIAA ESG USA Large-Cap Value Index</td>
<td>MSCI USA Value Index</td>
</tr>
<tr>
<td>TIAA ESG USA Mid-Cap Growth Index</td>
<td>MSCI USA Mid Cap Growth Index</td>
</tr>
<tr>
<td>TIAA ESG USA Mid-Cap Value Index</td>
<td>MSCI USA Mid Cap Value Index</td>
</tr>
<tr>
<td>TIAA ESG USA Small-Cap Index</td>
<td>MSCI USA Small Cap Index</td>
</tr>
<tr>
<td>TIAA ESG USA Large-Cap Index</td>
<td>MSCI USA Index</td>
</tr>
<tr>
<td>TIAA ESG International Developed Markets Equity Index</td>
<td>MSCI EAFE Index</td>
</tr>
<tr>
<td>TIAA ESG Emerging Markets Equity Index</td>
<td>MSCI Emerging Markets (EM) Index</td>
</tr>
</tbody>
</table>

3.2 ESG SCREENED UNIVERSE

The ESG Screened Universe includes constituents from the ‘Parent Index’, which are not excluded as per the exclusion criteria (Section 3.2.1) and are selected in each GICS® sector (as per Section 3.2.2).

3.2.1 ESG EXCLUSION CRITERIA

CONTROVERSY SCORE EXCLUSION SCREEN

Securities of companies involved in very severe business controversies are not eligible for inclusion in the TIAA ESG Indexes. This is implemented by excluding...
constituents of the Parent Index with MSCI ESG Controversy Score of 1 or lower ('Red Flag' and 'Orange Flag' companies).

Securities of companies not assessed by MSCI ESG Research for ESG Controversies are excluded from the ESG Screened Universe.

**ENHANCED CONTROVERSY SCORE**

This exclusion criterion is not applicable for the TIAA ESG Emerging Markets Equity Index.

Orange Flag securities which satisfy any of the following criteria do not undergo Controversy Score exclusion screening (as per 3.2.1.1):

- Change in Industry Adjusted Score over the last three years is greater than or equal to 50%. Change in Industry Adjusted Score is calculated relative to the oldest available Industry Adjusted Score in 3-year long history. The change is calculated as \((\text{current Industry Adjusted Score} - \text{oldest available Industry Adjusted Score})/\text{current Industry Adjusted Score}\).
  - The change is calculated relative to 2-year-old Industry Adjusted Score, if 3-year-old score is not available
  - The change is calculated relative to 1 year old Industry Adjusted Score, if neither 3-year-old score nor 2-year-old score is not available
  - The change is not calculated if there is no available history within last 3 years
- MSCI ESG Rating is ‘A’ or better

**CONTROVERSIAL BUSINESS EXCLUSION SCREEN**

Securities that are involved in specific businesses which have high potential for negative social and/or environmental impact are ineligible for inclusion in the index. Specifically:

- Alcohol
- Tobacco
- Gambling
- Nuclear Power
- Weapons and Firearms

Please refer to Appendix I for more details on these criteria.
ESG RATING EXCLUSIONS

- MSCI ESG Rating Screen – Exclude ‘CCC’
- Missing Rating – Securities not assessed by MSCI ESG Research for MSCI ESG Ratings are excluded from the ESG Screened Universe

GLOBAL SANCTIONS

This exclusion criterion is only applicable for the TIAA ESG Emerging Markets Equity Index.

Securities of companies that have certain business involvement in Sudan are ineligible for inclusion in the index. Please refer to Appendix II for more details on this criterion.

3.2.2 SECURITY SELECTION CRITERIA

The remaining securities are sorted within each GICS® sector in descending order of industry adjusted score, controversy score and free float adjusted market capitalization. Subsequently, within each sector securities are selected until the cumulative weight of selected securities is 50% of the aggregate sector weight in the Parent Index.

The security that increases the cumulative sector coverage above 50% is defined as the ‘marginal security’. The marginal security is included if it satisfies any of the following criteria:

- If its non-inclusion would result in cumulative sector coverage of less than 45%
- If its non-inclusion leads to higher absolute deviation from the target than the deviation due to marginal security’s inclusion

3.3 CARBON SCREENED UNIVERSE

Securities from the ESG Screened Universe (from section 3.2) that are not excluded as per the below carbon emission exclusion criteria are included in the Carbon Screened Universe.

3.3.1 CARBON EMISSION EXCLUSION

1. Exclude securities with any ownership of fossil fuel reserves
2. Absolute Emission
a. Compute cumulative absolute emission (Scope 1 + Scope 2 emission) of the securities in the ESG Screened Universe
b. Sort securities in descending order of absolute emission
c. Exclude securities with the highest absolute emission until the cumulative absolute emission of the remaining securities is less than 50% of total cumulative absolute emission (calculated in the first step)

3. Emission Intensity

a. Compute total sales and Absolute Emission for the securities in the ESG Screened Universe
b. Compute Total Carbon Emission Intensity of the list by dividing Total Scope 1+2 Emissions by Total Sales (as computed in the previous step)
c. Set half the value computed above as the exclusion threshold for this step
d. Calculate Carbon Emission Intensity of each security as the ratio of Absolute Emission to total sales of the security and sort the list in its descending order
e. Exclude the securities with the highest Carbon Emission Intensity until the Total Carbon Emission Intensity of the remaining securities falls below the threshold set
f. Exception – Add back companies with GICS® sub-industry Renewable Electricity (GICS code: 55105020)

3.4 DETERMINING THE OPTIMIZED INDEX

The final index constituents are selected from the Carbon Screened Universe (from section 3.3) with an aim to achieve risk and return characteristics similar to the Parent Index using an optimization process. Optimization aims to minimize active risk subject to constraints. At each Quarterly Index Review, the following optimization constraints are employed, which aim to ensure replicability and investability while minimizing tracking error with respect to the respective Parent Index:
## Optimization Constraints

<table>
<thead>

</tbody>
</table>

*Set as soft constraint while setting the optimization, thus reducing the possibility of not finding a feasible solution

Active weights are with respect to the weight in the Parent Index

---

Infeasible Optimizations - During the Quarterly and Semi-Annual Index Reviews, in the event that there is no optimal solution that satisfies all the optimization constraints, first the turnover constraint will be relaxed up to a maximum turnover of 50% in 5% increments until an optimal solution is found. If a feasible solution is not found at turnover of 50%, the predicted tracking error is relaxed up to a maximum of 5% in 1% increments. In the event that a feasible solution is still not found, initial construction (tracking error constraint of 3% and no turnover constraint) will be undertaken for that Index Review.
The optimization is conducted using the Barra Open Optimizer in combination with the relevant Barra Global Equity Model. The optimization uses securities of Carbon Screened Universe for selection, and the aim to achieve the specified optimization objective within the constraints to determine the constituents of the Index.
4 Maintaining the TIAA ESG Indexes

4.1 QUARTERLY INDEX REVIEWS

The Index is rebalanced on a quarterly basis to coincide with the regular Index Reviews (Semi-Annual Index Reviews in May and November, and Quarterly Index Reviews in February and August) of the MSCI Global Investable Market Indexes. The changes are implemented at the end of February, May, August and November. The pro forma indexes are in general announced nine business days before the effective date.

In general, MSCI uses MSCI ESG Research data (including MSCI ESG Ratings, MSCI ESG Controversies Scores, MSCI Business Involvement Screening Research and MSCI Climate Change Metrics) as of the end of the month preceding the Index Reviews. For some securities, such data may not be published by MSCI ESG Research by the end of the month preceding the Index Review. For such securities, MSCI will use ESG data published after the end of month, when available.

At each Index Review, the optimization process outlined in Section 3.4 is implemented.

4.2 ONGOING EVENT-RELATED CHANGES

The general treatment of corporate events in the TIAA ESG Indexes aims to minimize turnover outside of Index Reviews. The methodology aims to appropriately represent an investor’s participation in an event based on relevant deal terms and pre-event weighting of the index constituents that are involved. Further, changes in index market capitalization that occur as a result of corporate event implementation will be offset by a corresponding change in the Variable Weighting Factor (VWF) of the constituent.

Additionally, if the frequency of Index Reviews in the Parent Index is greater than the frequency of Index Reviews in the TIAA ESG Indexes, the changes made to the Parent Index during intermediate Index Reviews will be neutralized in the TIAA ESG Indexes.

The following section briefly describes the treatment of common corporate events within the TIAA ESG Indexes.

No new securities will be added (except where noted below) to the Index between Index Reviews. Parent Index deletions will be reflected simultaneously.
<table>
<thead>
<tr>
<th>EVENT TYPE</th>
<th>EVENT DETAILS</th>
</tr>
</thead>
<tbody>
<tr>
<td>New additions to the Parent Index</td>
<td>A new security added to the parent index (such as IPO and other early inclusions), will not be added to the index.</td>
</tr>
<tr>
<td>Spin-Offs</td>
<td>All securities created as a result of the spin-off of an existing Index constituent will be added to the Index at the time of event implementation. Reevaluation for continued inclusion in the Index will occur at the subsequent Index Review.</td>
</tr>
<tr>
<td>Merger/Acquisition</td>
<td>For Mergers and Acquisitions, the acquirer’s post event weight will account for the proportionate amount of shares involved in deal consideration, while cash proceeds will be invested across the Index. If an existing Index constituent is acquired by a non-Index constituent, the existing constituent will be deleted from the Index and the acquiring non-constituent will not be added to the Index.</td>
</tr>
<tr>
<td>Changes in Security Characteristics</td>
<td>A security will continue to be an Index constituent if there are changes in characteristics (country, sector, size segment, etc.) Reevaluation for continued inclusion in the Index will occur at the subsequent Index Review.</td>
</tr>
</tbody>
</table>

Further detail and illustration regarding specific treatment of corporate events relevant to this Index can be found in the MSCI Corporate Events Methodology book.

The MSCI Corporate Events methodology book is available at: https://www.msci.com/index-methodology.
Appendix I: Controversial Business Screening Criteria

Companies that are involved in certain controversial business activities are ineligible to be included in the TIAA ESG Indexes because of the high potential for negative social and/or environmental impacts of these activities. The details for the eligibility criteria are as follows:

- **Alcohol Producer** - All companies classified as alcohol “Producer” that earn either 10% or more revenue or more than $1.0 billion in revenue from alcohol-related products
- **Tobacco** - All companies classified as tobacco “Producer” that earn either 10% or more revenue or more than $1.0 billion in revenue from tobacco-related products
- **Gambling** - All companies classified as gambling “Operations” or “Support” that earn either 10% or more revenue or more than $1.0 billion in revenue from gambling-related products
- **Nuclear Power**
  - All companies with 6000 MW or more of installed capacity attributed to nuclear sources or with 10% or more of installed capacity attributed to nuclear sources
  - All companies involved in nuclear fuel enrichment for nuclear power generation
  - All companies involved in uranium mining for nuclear power generation
  - All companies involved in nuclear reactor design or construction for nuclear power generation
- **Weapons and Firearms**
  - **Conventional Weapons** - All companies that manufacture conventional weapons components or conventional weapons and weapons systems and earn 10% or more in revenue, or $3 billion or more in revenue from these activities
  - **Controversial Weapons**
    All companies with any tie to Controversial Weapons (cluster munitions, landmines, depleted uranium weapons, biological/chemical weapons, blinding lasers, non-detectable fragments and incendiary weapons), as defined by the methodology of the MSCI Ex-Controversial Weapons Indexes available at [https://www.msci.com/index-methodology](https://www.msci.com/index-methodology)
- Civilian Firearms - All companies classified as a “Producer” that earn any revenue from civilian firearms.
Appendix II: Global Sanctions Screen

Companies satisfying the following criteria are excluded from the Index

- Companies with ties to Sudanese military or government
- Companies that sell or distribute military equipment to any party based in Sudan or operating within Sudan borders (except United Nations and African Union troops)
- Companies that are majority owned subsidiary of mineral/power/military/oil-involved Sudanese company
- Companies with ten percent or more of its total assets or revenues in Sudan that are associated with oil/mineral/or power sectors, or that have demonstrated complicity in genocide in Sudan

This screen does not exclude companies with substantial action toward cessation of operations, inactive operations, or humanitarian efforts in Sudan. The Screen is applied from December 2015.
The following sections have been modified since November 2016

Section 3.1 – Defining the Parent Index
• Updated to include the Parent Index definition for the following two additional Indexes
  o TIAA ESG International Developed Markets Equity Index
  o TIAA ESG Emerging Markets Equity Index

Section 3.2.1.2 – Enhanced Controversy Score
• Updated to clarify the exclusion criterion for TIAA ESG Emerging Markets Equity Index

Section 3.2.1.5 – Global Sanctions
• Updated to include the Global Sanctions exclusion criterion for TIAA ESG Emerging Markets Equity Index

Section 3.4 – Optimization Constraints
• Updated to reflect the optimizer constraints applicable for the new TIAA ESG Indexes

Appendix II – Global Sanctions Screen
• Added to provide details of the screen

The following sections have been modified since March 2017

Section 4.2 – Ongoing Event Related Maintenance
• The details of the Corporate Events treatment are now included in Section 4.2

The following sections have been modified since June 2017

Section 3.2.1.2 – Enhanced Controversy Score
• Updated to provide more details about the calculation of change in Industry Adjusted Score

Section 3.3.1 – Carbon Emission Exclusion
• Updated to clarify the treatment of securities with nonzero potential carbon emission
The following sections have been modified since November 2017

Appendix I – Controversial Business Screening Criteria
- Updated the controversial business screening criteria pertaining to Controversial Weapons

The following sections have been modified since May 2018

Section 3.1 – Defining the Parent Index
- Updated to include the Parent Index definition for the following additional Index
  - TIAA ESG USA Large-Cap Index

Section 3.4 – Optimization Constraints
- Updated to reflect the optimizer constraints applicable for the new TIAA ESG Indexes

Section 4.1: Quarterly Index Reviews
- Clarification on use of ESG data for securities whose data would be available after the end of the month preceding Index Review

The following sections have been updated effective as of September 1, 2022:

Appendix: ESG Screening Criteria

ABOUT MSCI

MSCI is a leader provider of critical decision support tools and services for the global investment community. With over 50 years of expertise in research, data and technology, we power better investment decisions by enabling clients to understand and analyze key drivers of risk and return and confidently build more effective portfolios. We create industry-leading research-enhanced solutions that clients use to gain insight into and improve transparency across the investment process.

The process for submitting a formal index complaint can be found on the index regulation page of MSCI’s website at: https://www.msci.com/index-regulation.

To learn more, please visit www.msci.com.
Notice and disclaimer

This document and all of the information contained in it, including without limitation all text, data, graphs, charts (collectively, the "Information") is the property of MSCI Inc. or its subsidiaries (collectively, "MSCI"), or MSCI’s licensors, direct or indirect suppliers or any third party involved in making or compiling any Information (collectively, with MSCI, the "Information Providers") and is provided for informational purposes only. The Information may not be modified, reverse-engineered, reproduced or redistributed in whole or in part without prior written permission from MSCI. For example (but without limitation), the Information may not be used to create indexes, databases, risk models, analytics, software, or in connection with the issuing, offering, sponsoring, managing or marketing of any securities, portfolios, financial products or other investment vehicles utilizing or based on, linked to, tracking or otherwise derived from the Information or any other MSCI data, information, products or services. The user of the Information assumes the entire risk of any use it may make or permit to be made of the Information. NONE OF THE INFORMATION PROVIDERS MAKES ANY EXPRESS OR IMPLIED WARRANTIES OR REPRESENTATIONS WITH RESPECT TO THE INFORMATION (OR THE RESULTS TO BE OBTAINED BY THE USE THEREOF), AND TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, EACH INFORMATION PROVIDER EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES (INCLUDING, WITHOUT LIMITATION, ANY IMPLIED WARRANTIES OF ORIGINALITY, ACCURACY, TIMELINESS, NON-INFRINGEMENT, COMPLETELESS, MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE) WITH RESPECT TO ANY OF THE INFORMATION. Without limiting any of the foregoing and to the maximum extent permitted by applicable law, in no event shall any Information Provider have any liability regarding any of the Information for any direct, indirect, special, punitive, consequential (including lost profits) or any other damages even if notified of the possibility of such damages. The foregoing shall not exclude or limit any liability that may not by applicable law be excluded or limited, including without limitation (as applicable), any liability for death or personal injury to the extent that such injury results from the negligence or willful default of itself, its servants, agents or sub-contractors. Information containing any historical information, data or analysis should not be taken as an indication or guarantee of any future performance, analysis, forecast or prediction. Past performance does not guarantee future results. The Information should not be relied on and is not a substitute for the skill, judgment and experience of the user, its management, employees, advisors and/or clients when making investment and other business decisions. All information is impersonal and not tailored to the needs of any person, entity or group of persons. None of the Information constitutes an offer to sell (or a solicitation of an offer to buy), any security, financial product or other investment vehicle or any trading strategy.

It is not possible to invest directly in an index. Exposure to an asset class or trading strategy or other category represented by an index is only available through third party investable instruments (if any) based on that index. MSCI does not issue, sponsor, endorse, market, offer, review or otherwise express any opinion regarding any fund, ETF, derivative or other security, investment, financial product or trading strategy that is based on, linked to or seeks to provide an investment return related to the performance of any MSCI index (collectively, "Index Linked Investments"). MSCI makes no assurance that any Index Linked Investments will accurately track index performance or provide positive investment returns. MSCI Inc. is not an investment adviser or fiduciary and MSCI makes no representation regarding the advisability of investing in any Index Linked Investments. Index returns do not represent the results of actual trading of investible assets/securities. MSCI maintains and calculates indexes, but does not manage actual assets. Index returns do not reflect payment of any sales charges or fees an investor may pay to purchase the securities underlying the index or Index Linked Investments. The imposition of these fees and charges would cause the performance of an Index Linked Investment to be different than the MSCI index performance. The Information may contain back tested data. Back-tested performance is not actual performance, but is hypothetical. There are frequently material differences between back tested performance results and actual results subsequently achieved by any investment strategy. Constituents of MSCI equity indexes are listed companies, which are included in or excluded from the indexes according to the application of the relevant index methodologies. Accordingly, constituents in MSCI equity indexes may include MSCI Inc., clients of MSCI or suppliers to MSCI. Inclusion of a security within an MSCI index is not a recommendation by MSCI to buy, sell, or hold such security, nor is it considered to be investment advice. Data and information produced by various affiliates of MSCI Inc., including MSCI ESG Research LLC and Barra LLC, may be used in calculating certain MSCI indexes. More information can be found in the relevant index methodologies on www.msci.com.

MSCI receives compensation in connection with licensing its indexes to third parties. MSCI Inc.‘s revenue includes fees based on assets in Index Linked Investments. Information can be found in MSCI Inc.’s company filings on the Investor Relations section of www.msci.com. MSCI ESG Research LLC is a Registered Investment Adviser under the Investment Advisers Act of 1940 and a subsidiary of MSCI Inc. Except with respect to any applicable products or services from MSCI ESG Research, neither MSCI nor any of its products or services recommends, endorses, approves or otherwise expresses any opinion regarding any issuer, securities, financial products or instruments or trading strategies and MSCI’s products or services are not intended to constitute investment advice or a recommendation to make (or refrain from making) any kind of investment decision and may not be relied on as such. Issuers mentioned or included in any MSCI ESG Research materials may include MSCI Inc., clients of MSCI or suppliers to MSCI, and may also purchase research or other products or services from MSCI ESG Research. MSCI ESG Research materials, including materials utilized in any MSCI ESG Indexes or other products, have not been submitted to, nor received approval from, the United States Securities and Exchange Commission or any other regulatory body. Any use of or access to products, services or information of MSCI requires a license from MSCI. MSCI, Barra, RiskMetrics, IPD and other MSCI brands and product names are the trademarks, service marks, or registered trademarks of MSCI or its subsidiaries in the United States and other jurisdictions. The Global Industry Classification Standard (GICS) was developed by and is the exclusive property of MSCI and Standard & Poor’s. “Global Industry Classification Standard (GICS)” is a service mark of MSCI and Standard & Poor’s. MIFID2/MIFIR notice: MSCI ESG Research LLC does not distribute or act as an intermediary for financial instruments or structured deposits, nor does it deal on its own account, provide execution services for others or manage client accounts. No MSCI ESG Research product or service supports, promotes or is intended to support or promote any such activity. MSCI ESG Research is an independent provider of ESG data, reports and ratings based on published methodologies and available to clients on a subscription basis. We do not provide custom or one-off ratings or recommendations of securities or other financial instruments upon request.

Privacy notice: For information about how MSCI collects and uses personal data, please refer to our Privacy Notice at https://www.msci.com/privacy-pledge.
