
MSCI US REIT INDEX MAY 2007 SEMI-ANNUAL INDEX REVIEW

New York – May 3, 2007 - MSCI Barra, a leading provider of benchmark indices and risk management analytics products, announced today changes to the MSCI US REIT Index that will be effective as of the close of May 31, 2007. These changes result from the May 2007 Semi-Annual Index Review.

There will be four additions to and one deletion from the MSCI US REIT Index. There will be no updates in securities number of shares outstanding. The Domestic Inclusion Factor (DIF) for thirteen securities will change in order to more accurately reflect the availability of shares.

The MSCI US REIT Index is comprised of REIT securities that are included in the MSCI US Investable Market 2500 Index, with the exception of:

- REITs classified in the Mortgage REITs Sub-Industry, and
- REITs classified in the Specialized REITs Sub-Industry that do not generate a majority of their revenue and income from real estate rental and related leasing operations.

The MSCI US REIT Index, in conjunction with the MSCI US Equity Indices, is fully reviewed at the end of each May and November (Semi-Annual Index Reviews). Each Semi-Annual Index Review involves a comprehensive review of the US Equity market capitalization indices as well as the US Equity value and growth indices. During the review, changes in the investability of constituents and non-constituents are also assessed. Semi-Annual Index Reviews may result in changes in DIFs or updates in number of shares.

The results of the May 2007 Semi-Annual Index Review for the MSCI US Equity Indices, the MSCI Small Cap Index Series, the MSCI Global Value and Growth Index Series, the MSCI High Dividend Yield Indices, the MSCI Japan Kokunai Indices, and the May 2007 Annual Full Country Index Review for the MSCI Standard Index Series, the Pan-Euro and Euro Indices, the MSCI GDP Index Series as well as the pro-forma list of constituents for the MSCI Global Investable Market Indices have also been posted on MSCI Barra's web site at www.msclubarra.com.

###

About MSCI Barra

MSCI Barra develops and maintains equity, REIT and hedge fund indices that serve as benchmarks for an estimated USD 3 trillion on a worldwide basis.
